There should be strong evidence of extensive community involvement and quality planning in your

project from inception through design of programs and final use. Such evidence could include ongoing participation by the community, how the facility is to be managed, and previous experience of the applicant in organizational operation and programming.

Evidence of carefully planned and executed local fundraising is important, as is the ability to forecast future financial support from earned and/or contributed revenues. In some cases, emergencies or other issues may preclude the expected extensive planning. Applicants for such projects are encouraged to complete as much planning as possible. Applicants are encouraged to use professional consultants for planning and/or completion of projects.

This section is vital to providing the Commission with a complete understanding of your organization, your project, and resources available.

Please do not include any proprietary or confidential information when submitting your application. The application process is a public process and as such, all submitted documentation is available to the public upon request.
