**Comments and Concerns** (type here):

On the way to the site, there were a couple of vehicles parked in the lower parking area but we didn't see anyone. When we got to the site there was a bunch of trash, including beer cans and food wrappers, but none site features were effected. We took photos of the vehicles and collected the trash.

**Photography Guidelines:**

Please include photos of impacts with a photographic log. Also remember to submit yearly baseline photos. (Check box next to all that apply)

**Comments and Concerns** (type here):

There was digging in the rock shelter, not sure if it was done by animals or humans. However, there was also new scratched graffiti on the rock art panel "Angie loves Billy 2020". I have attached the impact photos and some photos of the panel from our last baseline 11/01/2020.

Rock Falls <input type="checkbox"/>	Erosion <input type="checkbox"/>	
Other: _____		

### Comments and Concerns:

There was a lot of trash around the area, after the holiday weekend. There was also some collector's piles of stone tool debris and one of the signs on the way in had graffiti on it. We took some photos of the trash, collectors piles and graffiti. We also redistributed the collector's pile near where it was found.

Impact Photo(s) Attached Yes
