Signature

Agency – State Public Works Division

Title – Project Manager

Email address – mjmcentee@admin.nv.gov

Phone number – 775-230-9807

Date of Request: 3/21/2022

Please allow up to 14 business days for this form to be processed. Proposed work must not begin until this form has been reviewed and approved by both the State Historic Preservation Office and the Nevada Indian Commission. In some cases, coordination with State Lands is also necessary. Per NRS 321.003, a state agency must also submit a Certification Request to the Nevada Division of State Lands before constructing a building or making other permanent improvements to state

lands. This includes ground disturbance for site work and utilities. If your project requires a State Lands Certification, you will find the instructions on the Division of State Lands website under "Forms."

<http://www.lands.nv.gov/>

To expedite your project, the SHPO recommends coordinating with SHPO and State Lands concurrently.

Please submit request form and supplementary materials to the State Historic Preservation Office, 901 S. Stewart St., Ste. 5004, Carson City, NV 89701-5248 or by email to rlpalmer@shpo.nv.gov.

Description of Proposed Work:

Please provide a thorough written description of the proposed work, including–

- Location on building
- Approximate size of area affected
- Existing conditions
- Materials to be used
- Proposed methods (must follow the [Secretary of the Interior's Standards](#))

(Use as many pages as needed)

The primary scope of this project is to perform maintenance on the existing roads within the Stewart Campus which entails patching, crack seal, slurry and restriping. However, the State has an interest in the installation of Electric Vehicle Charging Stations, and the Stewart Campus has

been selected as a candidate for two charging pedestals. We have secured funds from the Governor's Office of Energy, and are working diligently to secure rebate funds from NV Energy for this installation. This program has been included in the 21-S05 Statewide Paving Program with IFC approval. These pedestals will appear on charging station maps which will attract visitors with electric vehicles to the site.

These pedestals will be installed near the Cultural Center and Museum along Jacobsen way and will connect to the building electrical supply via underground conduit. The installation will required trenching and relandscaping through the lawn and minor replacement of sidewalk along Jacobsen.

State Public Works has been collaborating with Silver State Industries to come up with a wrap for these pedestals that will tone down the look of them, and match the landscape and structures at the facility. A proof has been provided along with the proposed drawings for this project.
