RE: CCCHP 19 04, request for \$24,679.00

Thank you again for the opportunity to apply for additional funding for the restoration project at 91 N. Main Street, Eureka, Nevada in this third round of funding redistribution.

I applied for additional funding in Round 2 for plumbing. To date the plumbing in this building has been completed and we no longer need funds for this item.

I would like to apply for funding to reinforce stabilization for the dance / art studio. In my original application this item appeared under item:

w. Removal of Dirt – Basement: \$9,450: clean up, repair and stabilize posts, remove debris.

I am updating this amount utilizing a new quote by a different contractor that includes renovations to existing support beams with concrete pads and metal straps. **The amount I am asking for is \$25,655.00 (quote) less \$976 (State Share CCCHP 19-04) = \$24,679.** This amount includes labor and cost of all materials and supplies needed. This improvement is a necessary addition to the support system in the rear portion of the building. The original quote of \$9,450 did not include setting the posts on concrete pads or the addition of new support beams. This quote adds new posts for support in addition to adding straps and concrete pads to the existing support posts. *This new amount would replace item w. on the original budget.*

As far as additional funds I have received, I recently raised \$9,000 from an event that Eureka Restoration Enterprise organized. These additional funds will help provide light fixtures for the rear room in question. Altogether, these additional funds – both through SHPO and our fundraiser, should allow us to complete our project.

Thank you,

Garney Damele, Eureka Restoration Enterprise
