INTRODUCTORY SECTION

White Pine County Department of Finance 297 Nevada Northern Rail Way, Suite 1 Ely, Nevada 89301 (775) 293-6508 FAX (775) 289-7711

November 29, 2021

Residents of White Pine County The Honorable Board of County Commissioners White Pine County, Nevada

We are pleased to submit the Comprehensive Annual Financial Report of White Pine County, Nevada for the fiscal year ended June 30, 2021.

Nevada Revised Statutes (NRS) 254.624 requires the County to issue an annual report on its financial position and activities and that this report be audited by an independent certified public accounting firm. This report is intended to fulfill the County's obligation under this NRS.

County management assumes full responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, based on a comprehensive framework of internal controls established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free from material misstatements. To the best of our knowledge and belief, the data presented is complete and accurate in all material aspects; it is presented in a manner designed to fairly set forth the financial position and results of operation of the County; and we have included all disclosures necessary to enable the reader to gain an understanding of the County's financial activities.

Hinton Burdick, PLLC, Certified Public Accountants, has audited the County's financial statements for the fiscal year ended June 30, 2021 and has issued an unmodified opinion. An unmodified opinion from the auditor is a clean opinion which indicates that the auditors were able to access needed financial information, that the information presented has conformed to GAAP (generally accepted accounting principles) and the auditors place no caveats or conditions upon the information presented. The Auditor's Report on the Financial Statements is located on the first page in the Financial Section of this report.

We are presenting the Management's Discussion and Analysis (MD&A) as an introduction to the financial statements. This section provides an overview and analysis of changes in the County's financial position to aid readers in understanding their financial impact and relationship to the financial statements and schedules provided. This section is presented to provide more meaningful information to our readers and to demonstrate accountability for our financial actions. The MD&A can be found immediately following the Auditor's Report on the Financial Statements in the Financial Section of this report.

GOVERNMENTAL PROFILE OF WHITE PINE COUNTY

White Pine County is a subdivision of the State of Nevada. It was originally within the boundaries of Lander County until 1869 when the Nevada legislature created White Pine County. It is located in the east central portion of the State and covers an area of approximately 8,900 miles. The county seat is located in the City

of Ely, the only incorporated city in the County. Townships in the County include Lund, Ruth and McGill. The population as of July 2020 was 10,826. The County is governed by a five member Board of Commissioners that serve four year terms.

The County serves citizens with programs that provide for safety, health, welfare, infrastructure and quality of life. Providing safety are the Sheriff's Department, District Attorney's Office, Judicial Services, Juvenile Probation, Fire District, Emergency Medical Services, Emergency Management and the Building & Planning Department. Health and welfare are provided by the Public Health Nurse and Social Services. Public infrastructure is provided through the Maintenance Department and the Road Department. Finally, quality of life is enhanced for our citizens through programs including Library Services, the Senior Center, the Agricultural Extension, the Aquatic Center, the Golf Course, the Fairgrounds and numerous parks.

In addition, the County provides for administrative and internal support services that are required to run the County, some of which are mandated through Nevada Revised Statutes (NRS). These include property appraisal and assessment, tax collection, record keeping, recording services, finance, purchasing, internal audit, technology services, human resources, economic development and risk management.

The County does include one blended component unit in its financial statements. Although it is a legally separate entity, it functions as an integral part of the primary government's operations and has the same governing board. Therefore, it is included as part of the primary government. The blended component unit is the White Pine County Fire Protection District and it is reported as special revenue fund. The County does not have any discretely presented component units.

The County has established various funds to track financial activities in compliance with NRS and GAAP, as well as to facilitate management control and monitoring of revenues and expenditures. The funds include the General Fund, 45 Special Revenue Funds, 2 Capital Improvement Funds, and 12 Custodial Funds. Budgeting is done annually for all County services in accordance with NRS 354.470 through 354.626, collectively known as the Local Government Budget and Finance Act. The legal level of budgetary control rests with the Board of County Commissioners and the Finance Director.

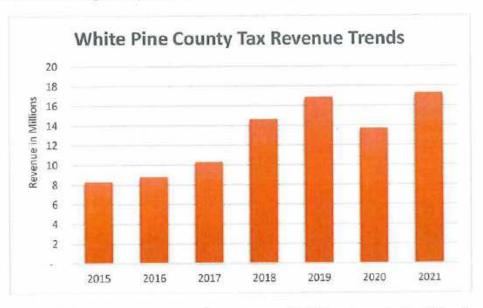

LOCAL ECONOMIC CONDITION AND OUTLOOK

Government (including federal, state and local) remains the largest classification of jobs and employment in the County. This is followed by the mining, quarrying and oil and gas extraction industry and then the accommodation and food service industry. With the mining, quarrying and oil and gas extraction industry providing the second highest number of the jobs, the County's economy is closely tied to this industry.

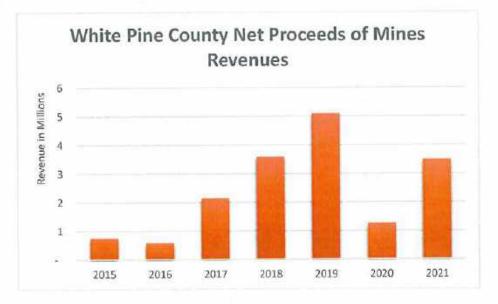

The largest mine, Robinson Nevada owned by KGHM International, produces primarily copper. There are also multiple gold mines in the County currently in production. Strong mineral prices throughout the fiscal year contributed to substantially higher mining tax revenues for the County than had been projected by the Nevada Department of Taxation. Actual revenues exceeded budgets by \$953,680 or 37%.

Tourism continues to play a substantial role in the County's economy. This portion of the economy was significantly impacted due to the pandemic initially but showed signs of recovery this year. White Pine County has much to offer including hunting and fishing, camping and hiking, golfing and mountain biking, indoor and outdoor aquatic facilities, car shows and car racing, rich cultural history, a historic railroad and art festivals and murals.

Tax revenues are the largest source of revenues in the County's governmental funds. They have been increasing since fiscal year 2015 except for fiscal year 2020 which is the year that was adversely impacted by business shutdowns due to the pandemic. Fiscal year tax revenues were \$8,293,087 in 2015, \$8,805,968 in 2016, \$10,288,939 in 2017, \$14,611,106 in 2018, \$16,848,053 in 2019, \$13,688,745 in 2020 (due to the pandemic) and in fiscal year 2021 it continued its previous trend increasing to \$17,286,116 exceeding fiscal year 2019.

Net proceeds of mines revenues prove to be more unpredictable as shown in the following chart:

This demonstrates the County's need to ensure that net proceeds of mines revenues are not relied on for ongoing operations. All types of revenues increase while the mines are in operation including real property and personal property ad valorem tax, sales tax, consolidated tax and other miscellaneous revenues. These will all decrease in kind when the mines cease operations. Because of this the County maintains an \$8 million net proceeds mitigation reserve to counter future challenges when the mines do close.

Another major factor impacting the economy is the amount of exempt land outside the control of the County. Approximately 91% of land in White Pine County is controlled by the Federal Government split between the Bureau of Land Management, the Forest Service and the National Parks Service. This has a limiting effect on economic development. The County continues to work on an initiative to obtain some of this federal land. The process established to transfer the land is a very slow and involved and will take more time.

The coronavirus pandemic did continue to impact the County's operations as well as its finances. Tourism revenue generators such as the horse races, county fair, Silver State Classic Road Race and the Arts is the Park Festival were put on hold during the fiscal year following State directives meant to encourage social distancing. However, other aspects of tourism did increase such as visits to Great Basin National Park, camping, fishing and mountain biking. These outdoor activities allowed individuals and families to find recreation without congregation in large groups. The County has been working with FEMA and other federal and state agencies to obtain financial assistance in order to help mitigate the impacts.

MAJOR INITIATIVES

White Pine County has worked on several major projects during the fiscal year.

- The County continued with construction of its Justice Center Project. When finished this project
 will provide a new, secure courthouse connected to the existing public safety building via a
 secure sally port, expand the jail to provide for the needed increased capacity and upgrade the
 public safety building. During the 2021 fiscal year the added construction costs were
 \$17,470,792 bringing the total outlay for the project to \$27,746,019 of the \$34.5 million total
 cost. Construction will continue in fiscal year 2022 with completion of the project anticipated in
 January 2022.
- As the County completes the Justice Center Project, two other major construction initiatives are being undertaken and planning stages for them have commenced:
 - o Renovation of the historic courthouse for utilization by County administrative offices
 - Design and construction of a community services building to be located at the site of the old County Annex which will house public health, social services, bus services and juvenile probation
- The County Airport is a vital asset for the citizens of White Pine County. It provides the only
 commercial runway for freight and mail in the area as well as for critical life flight services. The
 County works to maintain the major infrastructure assets at the airport by leveraging Federal
 Aviation Administration (FAA) grant funds. Under the grant program the FAA provides 93.75%
 of project costs and the County is required to match federal funds with 6.25% of costs. The five
 year capital improvement plan for the airport includes the following:
 - Crack Seal of Runway 12/30 (locally funded)
 - o Pavement Maintenance of Runway 18/36, Taxiway A and Main Apron (grant funded)
 - o Seal and Remark Runway 12/30 (locally funded)
 - o Perimeter Fence-23,405 linear feet-design and construction (grant funded)
 - o Reconstruct Terminal Area Apron-design and construction (grant funded)
- The County continues to utilize Bureau of Land Management funding made available through the Southern Nevada Public Lands Management Act to upgrade its parks and assist other entities in the upgrade of their parks and facilities. Ongoing projects include the upgrades to:
 - The McGill Ball Park for the County

- Phase 2 upgrade of the Nevada Northern Railroad
- o Upgrades to the County's Historic Courthouse Duck Pond
- o Phase 2 for the City of Ely's Jack Caylor Park upgrades
- o Construction of the Town of Ruth's Memorial Mining Park.

Additionally, in fiscal year 2021 the County applied for and was recently awarded approximately \$47.5 million for the following projects that should commence in fiscal year 2022:

- o Heritage Park for the County
- Phase 3 upgrade of the Nevada Northern Railroad (renovation of tracks/McGill depot)
- Upgrades to the County Fairgrounds including an all-weather event center
- The County continues its efforts to implement an Enhanced 911 (E911) System. White Pine
 County is classified as a frontier county. Many homes are very remote and not located on any
 type of map. This system will assist the County's public safety departments to respond faster to
 emergency calls by showing the locations of homes and businesses in the County on a GIS
 system. The County Commission passed a 911 Surcharge in fiscal year 2017 in order to help
 fund this system. All County roads are now in an accurate GIS database which is the first step in
 implementing the E911 System. During the fiscal year the County began work on adding noncounty roads and identifying outlying addresses.
- Another initiative closely related to the E911 System is the broadband initiative. White Pine County is working with the Governor's Office of Science, Innovation and Technology and other entities within the County to bring broadband services to communities throughout the County. High quality broadband is essential to emergency communications, economic development and service to citizens. The Justice Center Project will included a one gigabit connection and an E-Rate award will bring high speed internet into the County Library in fiscal year 2022.
- Water rights and transfer of water from one basin to another is an ongoing issue. The County
 continued its efforts to prevent the Southern Nevada Water Authority (SNWA) from transferring
 water in basins located in White Pine County to Clark County. Although this has been a quiet
 year related to this issue, it is the intent of the Board of County Commissioners to remain vigilant
 in safeguarding this vital asset.

LONG-TERM FINANCIAL PLANNING

With the County's economy driven by the mining industry, the Commissioners try to establish budgets for general operations with revenues that are recurring every year. The large one-time revenue amounts received for the net proceeds of mining tax are set aside to accomplish large projects. They are the main source of the funding for many of the projects described in the Major Initiatives section of this letter. The benefit of getting these major projects completed during the "boom" cycle that the mines are currently experiencing is that they will provide long-term infrastructure assets that can be utilized by the County for decades after the mining cycle once again reverts to a period of inactivity.

As mentioned earlier the County is continuing construction on the Justice Center Project. Funds for this project include a one quarter cent sales tax authorized under Senate Bill (SB) 74, net proceeds of mines transferred in from the general fund during multiple fiscal years, a legislative appropriation from the State of Nevada, a transfer from the justice court facilities fund and district court administrative fund, a 2.25% loan through the United States Department of Agriculture Rural Development (USDA-RD) in the amount of \$9,161,000 and another USDA interest free loan in the amount of \$1,000,000. Both USDA loans were drawn on starting in fiscal year 2021 and will be repaid utilizing the SB 74 sales tax revenues.

The ending general fund balance has \$1,868,731 assigned for the fiscal year 2022 budget appropriation which increased from last year when \$1,588,375 was assigned for subsequent year budget appropriation. All of the appropriation for fiscal year 2022 is for one-time expenditures for the Justice Center Project and renovation of the historic courthouse. This is consistent with utilizing fund balance to cover only one-time large expenses.

RELEVANT FINANCIAL POLICIES

The County utilizes budgetary controls in order to adequately track revenues and expenditures and to comply with legal requirements. The annual reports provided herein demonstrate the County's ongoing commitment to sound financial management.

Investment of the County's idle funds is the responsibility of the County Treasurer. The policy utilized requires that investments are made with safety, liquidity, and yield in that priority order. Reported revenues are required to include unrealized gains and losses. The County's portfolio has heavy reliance on certificates of deposit (CDs). The CDs and other held investments reported a substantial unrealized loss during the fiscal year due to the current situation in the markets. Unrealized gains and losses are not relied on unless investments are converted and the gains/losses become actual as opposed to unrealized. Due to the strong cash position of the County, investments are normally held until maturity. The Treasurer and the Finance Director work closely to ensure adequate cash flow for all ongoing activities. Additional information on cash and investments can be found in the notes to the financial statements.

AWARDS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to White Pine County for its Comprehensive Annual Financial Report for the Fiscal year ended June 30, 2019. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. The report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is only valid for a one year period. The County did submit its June 30, 2020 Comprehensive Annual Financial Report for eligibility. However, due to the pandemic the GFOA is behind and our 2020 report is still under review. We believe that both June 30, 2020 and our current Comprehensive Annual Financial Report continue to meet the Certificate of Achievement Program's requirements. We anticipate award of the Certificate of Achievement for June 30, 2020 report and will submit the June 30, 2021 report to GFOA to determine its eligibility for another certificate.

ACKNOWLEDGMENTS

The preparation of this report on a timely basis could not have been accomplished without the entire staff of the Finance Office. Additionally, the assistance received from staff in every department throughout the County was sincerely appreciated. Finally, a special thanks to the Board of County Commissioners for their leadership and dedication to the financial success of White Pine County.

Respectfully submitted,

izaboth Frances

Independent Auditor's Report

The Honorable County Commissioners White Pine County Ely, Nevada

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of White Pine County, Nevada, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

White Pine County's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of White Pine County, Nevada as of June 30, 2021, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note 1 to the financial statements, in fiscal year 2021, the District implemented the provisions of GASB Statement No. 84, *Fiduciary Activities*. Our opinion is not modified with respect to this matter.

Other Matters

Report on Detailed Comparative Information

We have previously audited White Pine County's financial statements for the year ended June 30, 2020, and our report dated January 12, 2021, expressed an unmodified opinion on those audited financial statements. In our opinion, the detailed comparative information presented herein as of and for the year ended June 30, 2020, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedules related to pensions and OPEB and related notes, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, combining statements and individual nonmajor fund budgetary comparison schedules, statistical section, and Nevada Revised Statute 354.6113, as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining statements and individual nonmajor fund budgetary comparison schedules, Nevada Revised Statute 354.6113, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other records used to prepare the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and budget and actual individual nonmajor fund financial statements, and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 19, 2021, on our consideration of White Pine County, Nevada's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

WHITE PINE COUNTY, NEVADA Management's Discussion and Analysis June 30, 2021

White Pine County's discussion and analysis is designed to, (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the County's financial activities, (c) identify changes in the County's financial position (its ability to address subsequent years' challenges), (d) identify any material deviations from the financial plan (the approved budget), and (e) identify individual fund issues or concerns.

We encourage readers to read this information in conjunction with the financial statements and notes, to gain a more complete picture of the information presented.

Financial Highlights

- The County qualified as a low-risk auditee and the auditor's report offers an unmodified opinion that the County's
 financial statements are presented fairly in all material respects.
- Total net position for governmental activities totaled \$95,577,546 at the end of fiscal year 2021 and \$88,352,659 at the end of fiscal year 2020. This is an increase in total net position of governmental activities of \$7,224,886 between fiscal years 2020 and 2021. Of total net position, the unrestricted net position at the end of fiscal year 2021 was a negative \$1,386,930 for governmental activities. This is a decrease of \$13,090,082 from 2020.
- Net position is the result of four financial components in the following equation: Total Assets + Total Deferred Outflows of Resources – Total Liabilities – Total Deferred Inflows of Resources = Total Net Position. The total for each of these components with comparative totals for the prior fiscal year are as follows:
 - Total assets for governmental activities at the end of fiscal year 2021 totaled \$122,185,309 and at the end fiscal year 2020 totaled \$112,476,565. This is an increase of \$9,708,755 from fiscal year 2020.
 - Total deferred outflows of resources for governmental activities at the end of fiscal year 2021 totaled \$2,674,292 and at the end of fiscal year 2020 totaled \$3,065,088. This is a decrease of \$390,796 from fiscal year 2020.
 - Total liabilities for governmental activities at the end of fiscal year 2021 totaled \$26,752,416 and at the end fiscal year 2020 totaled \$24,577,826. This is an increase of \$2,174,590 from fiscal year 2020.
 - Total deferred inflows of resources for governmental activities at the end of fiscal year 2021 totaled \$2,529,640 and at the end of fiscal year 2020 totaled \$2,611,168. This is a decrease of \$81,528 from fiscal year 2020.
- At the end of the fiscal year 2021, the unassigned fund balance for the General Fund was \$7,118,536 or 42% of total General Fund expenditures and transfers. For fiscal year 2020, the General Fund unassigned fund balance was \$6,861,867. The increase in unassigned fund balance of \$256,669 is a result of revenues exceeding expenditures and transfers by a total of \$553,838, the decrease to prepaid fund balance in the amount of \$2,117, the increase to inventory of \$18,930 and the increase to subsequent year budget appropriations in the amount of \$280,356.
- The County's primary general revenue sources for governmental activities during 2021 are Ad Valorem property taxes of \$7,855,093, unrestricted intergovernmental revenues in the form of consolidated taxes of \$3,563,990 andet proceeds from mines of 3,487,643. These three revenue sources comprise 34%, 15% and 15%, respectively, 064% of total general governmental revenues for 2021. During fiscal 2020 the primary general revenue sources wetAd Valorem property taxes of \$6,904,724, unrestricted intergovernmental revenues in the form of consolidated taxes of \$3,742,471 and sales taxes of \$2,619,462. These three revenue sources comprised 32%, 18% and 12%, respectively, or 62% of total general governmental revenues for 2020.

- The County's total expenses were \$24,497,013 for 2021 and \$23,573,367 for 2020. The greatest expenses in fiscal year 2021 were in the following activities: general government, public safety and public works. (Please refer to the table on page 21.)
- Total capital assets being depreciated in governmental activities were \$124,924,882 for 2021 and \$122,524,330 for 2020. For additional information on the County's capital assets, see note 6 in the accompanying financial statements.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements which
are composed of: government-wide financial statements, fund financial statements, and notes to basic financial
statements. This report also contains required supplementary information in addition to the basic financial
statements.

Government-Wide Financial Statements

- The government-wide financial statements are designed to provide readers with a broad overview of the County's finances in a manner similar to a private-sector business.
- The statement of net position presents information on all of the County's assets, liabilities and deferred inflows, with the difference being reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.
- o The statement of activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation and sick leave).
- The government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the County include general government, judicial, public safety, public works, health, welfare, culture and recreation, and community support.

Fund Financial Statements

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and agency funds.

Governmental Funds

- Governmental funds are used to account for essentially the same functions reported as governmental
 activities in the government-wide financial statements. However, unlike the government-wide
 financial statements, governmental fund financial statements focus on near-term inflows and
 outflows of expendable resources, as well as on balances of expendable resources available at the
 end of the fiscal year. Such information may be useful in evaluating the County's near-term financial
 requirements.
- Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing

decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

- The County maintains individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, the Grants Fund and the SB 74 Fund which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregate presentation. Individual fund data for each of these non-major governmental funds are provided in the combining and individual fund statements.
- The County adopts an annual appropriated budget for each of its governmental funds. A statement of revenues, expenditures and changes in fund balance-budget and actual is provided for each of the County's governmental funds to demonstrate compliance with the budget. The statements for the major governmental funds are included as required supplementary information to the basic financial statements. Statements for all other governmental funds are included as supplementary information.

Custodial Funds

 The County's fiscal year 2020 fiduciary funds have been reclassified to custodial funds pursuant to GASB Statement No. 84. The reclassification is meant to provide better consistency in reporting fiduciary activities. Under the new guidance the 25 trust and agency accounts within 14 funds reported in fiscal year 2020 are now shown as 12 custodial funds and 2 investment trust funds in fiscal year 2021.

Notes to the Basic Financial Statements

The notes to the basic financial statements provide additional information that is essential to a full
understanding of the data provided in the government-wide and fund financial statements.

Other Information

- In addition to the basic financial statements and accompanying notes, this report also presents certain
 required supplementary information. It also includes a schedule of compliance with state statutes
 reporting requirements and budgetary comparisons for the original and final budgets of the General
 Fund.
- The combining statements and individual fund schedules are presented immediately following the required supplementary information.

Government-Wide Financial Analysis

Net position of White Pine County as of June 30, 2021 and June 30, 2020, is summarized and analyzed below:

| | Governmental activities | | | | |
|-----------------------------------|-------------------------|---------------|--|--|--|
| | 2021 | 2020 | | | |
| Current and other assets | \$ 51,028,853 | \$ 59,387,454 | | | |
| Capital assets | 71,197,221 | 53,089,111 | | | |
| Total assets | 122,226,074 | 112,476,565 | | | |
| Deferred outflows of resources | 2,674,292 | 3,065,088 | | | |
| Long-term liabilities outstanding | 22,334,177 | 19,342,977 | | | |
| Other liabilities | 4,459,003 | 5,234,849 | | | |
| Total liabilities | 26,793,180 | 24,577,826 | | | |
| Deferred inflows of resources | 2,529,640 | 2,611,168 | | | |
| Net position: | | | | | |
| Net investment in capital assets | 71,197,221 | 53,089,111 | | | |
| Restricted | 25,767,254 | 23,560,396 | | | |
| Unrestricted | (1,386,929) | 11,703,152 | | | |
| Total net position | \$ 95,577,546 | \$ 88,352,659 | | | |

- As noted earlier, net position may serve over time as a useful indicator of the County's financial position. Governmental activities assets exceeded liabilities and deferred inflows by \$95,577,546 as of June 30, 2021 and \$88,352,659 as of June 30, 2020. The majority of this \$18,108,110 increase is attributable to one item – the construction of the new Justice Center. The County has been working on the new Justice Center which will provide a new, secure courthouse and an expansion of the existing jail facility at an estimated cost of \$34.5 million with funding provided primarily through sales tax revenues, net proceeds of mines revenues and an appropriation from the State of Nevada for the new courthouse. There were additional impacts from the project including a decrease to current assets for cash payments made during the course of construction as well as an increase to long-term liabilities outstanding as the county utilizes USDA debt instruments to fund the project.
- The largest portion of the County's net position for its governmental activities reflects its investment in capital
 assets (e.g., land, buildings, machinery and equipment, etc.), less any related debt outstanding used to acquire those
 assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not
 available for future spending. Although the County's investment in its capital assets is reported net of related debt,
 it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital
 assets themselves cannot be used to liquidate the debt.
- The next largest portion of the County's net position for its governmental activities represents resources that are subject to external restrictions on how they may be used. Of the restricted net position, 31% is for net proceeds mitigation, 31% is for public works projects, and the remainder is restricted for the County's special revenue funds.
- Unrestricted investment earnings for the County for the year ended June 30, 2021 was \$271,366. This is an 86% decrease from the prior fiscal year. The decrease is largely due to low interest rates and unrealized losses booked.
- At June 30, 2021 and June 30, 2020, White Pine County had positive balances of net position for its governmentwide activities.

Revenue and expenditure activities of White Pine County as of June 30, 2021 and June 30, 2020, are summarized below:

| | Governmental Activities | | | | |
|--|----------------------------|------------|----|------------|--|
| | | 2021 | | 2020 | |
| Revenues: | | | 8- | | |
| Program revenues: | | | | | |

| Net position, ending | \$ 9 | 95,577,546 | \$ | 88,352,659 | |

Financial Analysis of the County's Funds

- Government Funds
 - The focus of the County's governmental funds is to provide information on near-term inflows, outflows and balances of expendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the County's net resources available for spending at the end of the fiscal year.
 - As of the end of the fiscal years, the County's governmental funds reported a combined ending fund balance of \$47,301,272 and \$54,639,269 for years 2021 and 2020 respectively. This is a decrease of \$7,337,896 in comparison with the prior year.
 - The General Fund is the chief operating fund of the County. Comparatively, the fund balance of the General Fund was \$17,149,868 at the end of 2021 and was \$16,596,030 at the end of 2020. The fund balance of the County's General Fund increased by \$553,838 during the current fiscal year. This increase was due to a mixture of events including some revenues being higher than anticipated (personal property tax, net proceeds for mines and consolidated tax), some revenues being lower than anticipated (investment earnings) and mid-year appropriation of excess revenues for transfer to capital improvements in anticipation of the historic courthouse renovation and the community services building projects.
 - The SB 74 Fund tracks activities for public safety and judicial improvements funded through a quarter cent sales tax dedicated for that purpose. This is the fund being utilized for the justice center project. Comparatively, the fund balance of the SB 74 Fund was \$5,611,947 at the end of 2021 and was \$15,647,823 at the end of 2020. The fund balance decreased by \$10,035,876 during the current fiscal year and this was due to the ongoing justice center project. This accounts for the majority of the governmental funds reported decrease offset by other funds increases.

Budgetary Highlights

- The general fund's legal level of budgetary control is the function level. The final amended budget for expenditures and transfers out to other funds was \$18,110,239. This budget represents anticipated expenses/other financing uses over revenues/other financing sources in the amount of \$3,658,193. Actual expenditures and transfers out were \$1,303,679 less than the final budget. Much of this was a result of savings in judicial caseload, staff turnover and items being deferred until fiscal year 2022 due to supply chain issues. Judicial contributed \$474,005 or 36% of total reductions, General Government contributed \$466,517or 36% of total reductions and Public Safety \$278,745 or 21%.
- Revenues and other financing sources received in the general fund were more than budgeted by \$2,908,352. The net result of higher revenues and lower expenditures/other financing uses was an increase in the general fund balance of \$553,838. This increase is a \$4,212,031 favorable variance over the budgeted ending fund balance.
- The budget for expenditures in Grant Special Revenue Fund went from a beginning budget of \$0 to \$6,074,435. This happens because under Nevada Revised Statutes grant revenues are automatic

augmentations and grants are budgeted as carry forward amounts are known or new grants are awarded. There were two main sources from which grant funds were augmented, the Southern Nevada Public Lands Management Act (SNPLMA) and CARES Act. These grants increased the overall budget by \$3,158,579 and \$1,065,325 respectively for a total of \$4,223,904. Through the CARES Act funding the County was able to assist 52 small businesses with \$640,000 in business assistance grants.

Economic Factors

- Mining continues to play a significant role in the economy of White Pine County. Mineral prices
 remained strong throughout the fiscal year resulting in mining revenues that were \$953,680 over
 projections. This is in contrast to last year when the County had a negative variance from budget
 of \$1,968,184. This demonstrates the volatility of mining and why mining revenues are not relied
 on for ongoing operations. Instead, these revenues are dedicated to one-time capital projects which
 included the justice center project and the historic courthouse renovation in fiscal year 2021.
- Even though mining activity is currently on the increase, it cannot be relied on as a stable future economic factor for the County. Therefore, the County continues to promote expansion through renewable energy, energy transmission, and tourism and by capitalizing on its quality-of-life issues; isolation, outdoor recreation, and the desire of individuals and businesses to get away from the pressures of urban life and locate in a rural community.
- A new company is continuing to move forward with the preliminary steps required for a stored energy project. The proposed stored energy project would gravity feed water from the top of a mountain to the valley below generating electricity during peak loads. The water would then be pumped back up the mountain when demand was low. The topography of the County provides an excellent location for this project and it will assist White Pine County in leasing water rights at risk of reverting to the State. It is estimated that this will be a one hundred year, multi-billion dollar project providing many jobs during construction and 25 regular full-time job during operations.
- The County is continuing its work with the Federal Government to transfer federal lands to the County. These additional lands may provide the County with future opportunities for economic development and additional tax revenues.

Capital Asset Activity and Debt Administration

- White Pine County tracks capital assets with a value of \$5,000 or more including real property, buildings and upgrades to them, vehicles, equipment and infrastructure such as roads and bridges.
- · Changes to the County's capital assets are summarized in the following table:

| | Governmental Activities | | | | | | |
|--|-------------------------|----------------------|----|----------------------|--|--|--|
| Capital assets not being depreciated | 0 | Balance 6/30/2021 | | Balance 6/30/2020 | | | |
| | S | 31,156,013 | \$ | 12,405,234 | | | |
| Capital assets being depreciated | | 124,924,882 | | 122,524,330 | | | |
| Less accumulated depreciation | - | (84,883,674) | | (81,840,453) | | | |
| Total capital assets net of depreciation | \$ | 71,197,221 | \$ | 53,089,111 | | | |

- The major increases to capital assets occurred for the following reasons:
 - The Justice Center Project added \$17.47 million to construction in progress. The majority
 of funds for this project are through a one quarter cent sales tax (which will be utilized to
 service the USDA loans discussed below) and transfers from the County's General Fund.
 - Other large additions to construction in progress included \$764,145 for park improvements, \$543,667 for fire station improvements and \$452,334 for renovation of the senior center.
 - Capital assets being depreciated increased \$1.9 million primarily for road department vehicles (\$1,301,624), emergency medical services equipment (\$274,176) and buses for public transportation (\$165,814).
 - An additional \$786,297 was transferred into capital assets being depreciated from construction in progress as various projects were completed during the fiscal year.
- Additional information related to capital asset activity can be found in the Notes to the Financial Statements – Note 6, Capital Assets.
- During fiscal year 2021 the County began incurring debt through United States Department of Agriculture Rural Development (USDA-RD) Community Facilities Loan to the County for the construction of the justice center project. The loan will have a 32-year term with the first two years for construction requiring annual interest-only payments with the first payment of interest due in August 2021. The next 30 years will require principal and interest payments. The rate on the loan is 2.25%. The quarter cent sales tax allowed under SB 74 will be utilized to service the debt on this loan. The amount drawn as of June 30, 2021 was \$2,485,673.
- In addition to the USDA-RD Community Facilities Loan, the County also utilized a USDA-RD Rural Economic Development Loan. This program provides funding for rural projects through local utility organizations. White Pine County worked with Mount Wheeler Power to obtain these funds and the County is very grateful for Mount Wheeler Power's assistance. The loan amount obtained was \$1,000,000 and it is medium term, 10-year and interest-free. It was issued in September 2020 and repayment began in November 2020. The quarter cent sales tax allowed under SB 74 is being utilized to service the debt on this loan the outstanding amount at June 30, 2021 was \$932,773.

Requests for Information

This report is designed to provide a general overview of White Pine County's finances for all
interested parties. Questions concerning information contained in this report or requests for
additional financial information should be addressed to Elizabeth Frances, Finance Director, at 297
Nevada Northern Rail Way, Suite 1, Ely, Nevada 89301.

WHITE PINE COUNTY Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To The Statement of Activities For the Year Ended June 30, 2021

| Amounts reported for governmental activities in the statement of activities are different because: | | | | |
|---|----|-------------|----|---|
| Net changes in fund balances - total governmental funds | | | \$ | (7,337,896) |
| | | | | |
| Revenues that do not provide current financial resources are not reported as | | | | |
| revenues in governmental funds. This represents the change in unavailable | | | | (44.025) |
| revenues for property taxes and long term receivables that are deferred in the funds. | | | | (sectores) |
| the failurs. | | | | |
| Governmental funds report capital outlays as expenditures. However, in the | | | | |
| statement of activities the cost of those assets is allocated over their estimated | | | | |
| useful lives and reported as depreciation expense. This is the amount by which | | | | |
| capital outlay exceeded depreciation in the current period. | e | 21,491,797 | | |
| Capital outlay | \$ | (3,326,887) | | 18,164,910 |
| Depreciation expense | | (5,520,687) | | 10,104,210 |
| Pension and OPEB contributions are reported as expenditures in the | | | | |
| governmental funds when made. However, they are reported as deferred | | | | |
| outflows of resources in the statement of net position because the reported | | | | |
| net pension liability/OPEB liability is measured a year before the report date. | | | | |
| Pension expense/OPEB expense, which is the change in the net pension | | | | |
| liability/OPEB liability adjusted for changes in deferred outflows and inflows | | | | |
| of resources related to pension/OPEB, is reported in the statement of activities. | | | | |
| Pension contributions | s | 1,271,800 | | |
| Pension expense | | (1,042,477) | | |
| OPEB contributions | | 107,789 | | |
| OPEB expense | - | (227,374) | | 109,738 |
| Governmental funds do not report contributions of capital assets as | | | | |
| revenue, unless the assets will be held for sale. However, in the statement | | | | |
| of activities, the donation of capital assets is reported as revenue. | | | | 1,646 |
| | | | | |
| The net effect of various miscellaneous transactions involving capital assets | | | | 120 1465 |
| (i.e. sales, trade-ins, and disposals) is to decrease net position. | | | | (58,446) |
| The issuance of long-term debt (e.g., bonds, leases) provides current financial | | | | |
| resources to governmental funds, while the repayment of the principal of | | | | |
| long-term debt consumes the current financial resources of governmental funds. | | | | |
| Neither transaction, however, has any effect on net position. Also, governmental | | | | |
| funds report the effect of issuance costs, premiums, discounts, and similar items | | | | |
| when debt is first issued, whereas these amounts are deferred and amortized in | | | | |
| the statement of activities. This amount is the net effect of these differences in | | | | |
| the treatment of long-term debt and related items. | | | | |
| Debt issued or incurred: | | | | |
| Bonds payable | \$ | (3,485,673) | | |

NOTE 1. Summary of Significant Accounting Policies

Description of Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, when applicable, the *primary government* is reported separately from certain legally separate component units for which the primary government is financially accountable.

Reporting Entity

The County (government) is a political subdivision of the State of Nevada with a County Commission comprised of five commissioners elected at large. The accompanying schedules present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government. As to the County there are no discretely presented component units which are included to form the reporting entity.

Blended Component Unit. The White Pine County Fire District organized under NRS 474.460 and is a blended component unit of the County. The County Commission acts as the District's board and the district operates exclusively for the benefit of the County and its constituents. The District is reported as a special revenue fund. The Fire District does not issue separate financial statements.

Jurisdictions that are not considered to be part of the County include the incorporated City of Ely, White Pine County School District, White Pine County Hospital District, White Pine County Tourism and Recreation Board, White Pine County T.V. District and McGill/Ruth General Improvement District.

Basis of Presentation - Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds. Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The County has no business-type activities.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the government's funds, including its fiduciary funds and blended component units. Separate statements for each fund category—governmental, proprietary, and fiduciary—are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column.

NOTE 1. Summary of Significant Accounting Policies, Continued

All remaining governmental funds are aggregated and reported as nonmajor funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The County reports the following major governmental funds:

General Fund - The general fund is the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund.

Grant Projects - The Grant Projects fund is used to account for revenues and expenses related to various grants.

SB 74 Fund - The SB 74 fund is used to account for revenues and expenses related to the ¼ cent sales tax to be used for public safety.

Additionally the County reports the following fund types:

Fiduciary Funds

Custodial Funds are custodial in nature, cannot be used to support the County's own programs, and do not involve measurement of the results of operations. The funds account for assets held by the County as an agent for various local governments, special districts, and individuals. Included are funds for apportioned property taxes, shared revenues and other financial resources for schools, special districts, and other state agencies; funds held for inmates housed at the County jail; and assets held on behalf of special districts, boards and other miscellaneous agencies.

Investment Trust Fund – The investment trust fund accounts for the external portion of the County investment pool.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column.

NOTE 1. Summary of Significant Accounting Policies, Continued

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the government.

NOTE 1. Summary of Significant Accounting Policies, Continued

Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

Deposits and Investments

Cash includes cash on hand, demand deposits with banks and other financial institutions, deposits in other types of accounts or cash management pools that have the general characteristics of demand deposit accounts and short-term investments with original maturities of three months or less from the date of acquisition. Statutes authorize the County to invest in the State Investment Pool, bonds and debentures of the United States, obligations of the Federal Land Banks, bills and notes of the U.S. Treasury, obligations of the V.S. Postal Service, obligations of the Federal National Mortgage Association, certificates of deposits, short-term bonds of local governments and Banker's acceptance. All investments are carried at fair value with unrealized gains and losses recorded as adjustments to investment earnings. Fair values are based on quoted market prices.

Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to" or "due from other funds." The County does not have any trade accounts receivable, all other receivables are deemed collectible and an allowance for uncollectible accounts is deemed immaterial and has not been recorded.

Inventories

Inventories are valued at cost using the first-in/first-out (FIFO) method and consist of expendable supplies. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased.

Capital Assets

Capital assets, which include property, equipment and infrastructure, are reported in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art, and similar items, and capital assets received in a service concession arrangement are reported at acquisition value.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

| Buildings | 10-40 years |
|--------------------------|-------------|
| Improvements | 15-40 years |
| Equipment and vehicles | 3-15 years |
| Infrastructure and roads | 15-40 years |

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures by the governmental fund upon acquisition.

NOTE 1. Summary of Significant Accounting Policies, Continued

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County has two types of items that qualify for reporting in this category on the statement of net position which is *deferred outflows related to pensions* (see Note 12) and *deferred outflows related to OPEB* (see Note 15).

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has three types of items that qualify for reporting in this category on the statement of net position which are *deferred revenue – net proceeds*, *deferred inflows related to pensions* (see Note 12), and *deferred inflows related to OPEB* (see Note 15). The governmental funds balance sheet reports *unavailable revenue – property taxes* and *deferred revenue – net proceeds*. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources, deferred inflows of resources and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Nevada (PERS or System) and additions to/deductions from PERS' fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Postemployment Benefits Other than Pensions (OPEB)

For purposes of measuring the County's OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the County's OPEB plans (the Plans) and additions to/deductions from the Plans' fiduciary net position have been determined based on annual actuarial reports. Benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

NOTE 1. Summary of Significant Accounting Policies, Continued

Fund Balance Flow Assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The County Commission is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The County Finance Director is authorized to assign amounts to a specific purpose in accordance with the County's budget policy. The County Commission may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Unassigned fund balance represents the residual amount for the general fund that is not contained in the other classifications. The general fund is the only fund that reports a positive unassigned fund balance. Additionally, any deficit fund balance within the other governmental fund types is reported as unassigned.

NOTE 1. Summary of Significant Accounting Policies, Continued

Revenues and Expenditures/Expenses

Program Revenues

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

Property Taxes

All real property within White Pine County is assigned a parcel number in accordance with state law, with each parcel being subject to physical reappraisal every five years. A factoring system is used to adjust the appraised value during the years between physical appraisals. The assessed valuation of the property and its improvements is being assessed at 35% of "taxable value" as defined by statute. The amount of tax levied is developed by multiplying the assessed value by the tax rate applicable to the area in which the property is located.

The maximum tax rate was established in the State Constitution at \$5.00 per hundred dollars of assessed valuation; however, as a result of the 1979 legislative sessions, the tax rate was further limited to \$3.66 per hundred dollars of assessed valuation unless an additional rate is approved by the electorate. White Pine County is currently at this maximum tax limit.

Taxes on real property are a lien on the property and attach on July 1 of the year for which the taxes are levied. Taxes on property are due on the third Monday in August; however, they may be made in four installments payable on the third Monday in August, and the first Mondays in October, January and March. Penalties are assessed if a taxpayer fails to pay an installment within ten days of the installment due date. After a two year waiting period, a tax deed is issued conveying the property to the County with a lien for back taxes and accumulated charges. Redemption may be made by the owner and such persons as described by statute by paying all back taxes and accumulated penalties, interest and costs before sale.

Taxes on personal property are collected currently. Personal property declarations are mailed out annually and the tax is computed using percentages of taxable values established by the Department of Taxation and tax rates described above.

The major classifications of personal property are commercial, mobile homes, aircraft and agricultural. In White Pine County, taxes on motor vehicles are collected by the State. The taxes are then returned to the County of origin to be apportioned based on a statutory formula.

Taxes on net proceeds of mines are determined by the Nevada Tax Commission. Billing and collection functions are performed by the State with amounts remitted to the County.

NOTE 1. Summary of Significant Accounting Policies, Continued

Compensated Absences

It is the County's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. According to employee contracts, the full amount of earned but unused vacation and one-half of earned but unused sick leave has been recorded as a liability. The liability for these compensated absences is recorded as long-term debt in the government-wide statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Use of Estimates

Generally accepted accounting principles require management to make estimates and assumptions that affect assets and liabilities, contingent assets and liabilities, and revenues and expenditures. Actual results could differ from those estimates.

Prior-Year Detailed Comparative Information

Comparative data for the prior year has been extracted from the 2019-2020 financial statements and reclassified where necessary. It has been presented in the accompanying schedules in order to provide an understanding of changes in the government's financial position and operations. However, comparative data has not been presented in all statements because their inclusion would make certain statements unduly complex and difficult to understand. Such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the County's financial statements for the year ended June 30, 2020 from which the detailed information was derived.

New Pronouncements

For the year ended June 30, 2021, the District implemented the provisions of GASB Statement No. 84, *Fiduciary Activities*. GASB Statement No. 84 improves guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. Implementation of this new statement resulted in a change of the presentation of the custodial funds.

As of July 1, 2020 the agency funds are now custodial funds, and the related funds are presented as net position rather than liabilities. Although not shown on the statement of changes in fiduciary net position, the amount restated is \$501,447 for the implementation of GASB Statement No. 84, *Fiduciary Activities*.

NOTE 2. Reconciliation of Government-Wide and Fund Financial Statements

The governmental fund balance sheet includes a reconciliation between total governmental fund balances and net position of governmental activities as reported in the government-wide statement of net position. This difference primarily results from the long-term economic focus of the statement of net position versus the current financial resources focus of the governmental fund balance sheets. The details of these differences are reported in the reconciliation of the balance sheet of governmental funds to the statement of net position.

The governmental fund statement of revenues, expenditures, and changes in fund balance includes a reconciliation between net changes in fund balances-total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. These differences are the result of converting from the current resources measurement focus and modified accrual basis for governmental fund statements to the economic resources measurement focus and full accrual basis used for government-wide statements. The details of these differences are reported in the reconciliation of the statement of revenues, expenditures, and changes in fund balance of governmental funds to the statement of activities.

NOTE 3. Stewardship, Compliance and Accountability

Budgets and Budgetary Accounting

White Pine County adheres to the Local Government Budget and Finance Act incorporated in Chapter 354 of the Nevada Revised Statutes. The provisions of this Act include the following major procedures to establish the budgetary data which is reflected in these financial statements.

- On or before April 15, the Board files a tentative budget with the Nevada Department of Taxation for all funds other than Fiduciary Funds, which are not required to be budgeted. The appropriated budget is prepared by fund, function and department.
- 2. Public budget hearings on the tentative budgets are held in May each year. They are held no sooner than the third Monday and not later than the last day of the month.
- 3. On or before June 1, the Board indicates changes, if any, to be made to the tentative budget and adopts a final budget by the favorable vote of a majority of the members of the Board. The final budget must then be forwarded to the Nevada Department of Taxation for final approval.
- Formal budgetary integration in the financial records of all funds is employed to enhance management control during the year.
- 5. Budgets for the general fund, special revenue and capital projects are adopted on a basis consistent with generally accepted accounting principles (GAAP) except that all capital asset purchases are reported as expenditures when paid, gross proceeds from the sale of assets are reported as revenue when received, payments for notes receivable are reported as revenue when received and loans to businesses are reported as an expenditure when disbursed. Budgets for the debt service funds are adopted on a basis consistent with GAAP except that loan proceeds are treated as other financing sources and principal payments are treated as other expenditures. Uncommitted appropriations lapse at the end of the year.

NOTE 3. Stewardship, Compliance and Accountability, Continued

- 6. Budget amounts within funds, and between funds, may be transferred if amounts do not exceed the original budget. Such transfers are to be approved by the budget officer and/or the Board of Commissioners, depending on established criteria. Budget augmentations in excess of original budgetary amounts may not be made without prior approval of the Board of Commissioners following a scheduled and noticed public hearing. Exceptions to the public hearing requirement exist for grants and donations made for specified purposes.
- In accordance with State statute, actual expenditures may not exceed budgetary appropriations of the various governmental functions.

Expenditures over Appropriations

No funds or functions had expenditures in excess of final budget appropriations.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed by the County. A purchase order is required for all purchases in excess of \$250 and all travel.

NOTE 4. Deposits and Investments

Deposits

Custodial Credit Risk

For deposits this is the risk that in the event of a bank failure, the government's deposit may not be returned to it. The County does not have a formal policy for custodial credit risk. As of June 30, 2021, none of the County's bank balance of \$13,379,872 was exposed to custodial credit risk because it was either fully insured by FDIC insurance or collateralized by the Office of the State Treasurer of the Nevada Collateral Pool.

Investments

The County Treasurer is the official charged with making investments and follows an investment policy adopted in August, 2002. That policy provides that investments be made with safety, liquidity, and yield in that priority order with the maximum maturity of investments at 5 years. The provisions of State Law (NRS 355.170) govern the investment of public funds.

NOTE 4. Deposits and Investments, Continued

As of June 30, 2021 the County had the following investments, ratings, and maturities:

| | Fair | Credit Dating (1) | Weighted Average |
|----|------------|--|---|
| - | vanic | Rating (1) | Maturity (2) |
| | | 12 | 143 1 |

| | 3,227,829 | AAA/Aaa | N/A |
| | 2,255,217 | AA+ | 716 days |
| | 1,133,887 | AA+ | 1,504 days |
| | 14,604,941 | FDIC Insured | 610 days |
| - | 5,638,065 | FDIC Insured | 628 days |
| \$ | 37,319,477 | | |
| | \$ | Value \$ 10,459,538 3,227,829 2,255,217 1,133,887 14,604,941 5,638,065 | Value Rating (1) \$ 10,459,538 * 3,227,829 AAA/Aaa 2,255,217 AA+ 1,133,887 AA+ 14,604,941 FDIC Insured 5,638,065 FDIC Insured |

* This information is not readily available.

(1) Ratings are provided where applicable to indicate the associated credit risk. N/A indicates not applicable.

(2) Interest rate risk is estimated using the weighted average days to maturity.

Custodial Credit Risk

For an investment, this is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The County has no specific policy in relation to credit risk of investments.

The Nevada State Treasurer's Office operates the Local Government Pooled Investment Fund (LGPIF). The LGPIF is available for investment of funds administrated by the Nevada Public Treasurer.

The LGPIF is not registered with the SEC as an investment company. Deposits in the LGPIF are not insured or otherwise guaranteed by the State of Nevada, and participants share proportionally in any realized gain or losses on investments.

Interest Rate Risk

In accordance with its investment policy, the County manages its exposure to declines in fair values by limiting its investments to liquid securities with maturities of less than five years.

Fair Value of Investments

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The government securities and 32.68% of the Nevada Local Government Pooled Investment Fund, as listed above, are valued using quoted market prices (Level 1 inputs). The money market mutual funds, certificates of deposit, and 67.32% of the Nevada Local Government Pooled Investment Fund, as listed above, are valued using significant other observable inputs (Level 2 inputs).

NOTE 4. Deposits and Investments, Continued

Unrealized Gains and Losses on Investments Assigned to Other Funds

According to County policy, the County Treasurer allocates interest income, dividends, and realized gains and losses to the funds based on the investment balances owned by each fund. Unrealized gains and losses are allocated using the same methodology described above; however, unrealized gains and losses are assigned to the general fund as shown below.

| | Allocation of Unrealized Gains and (Losses) | Assigned to General Fund |
|------------------------------|--|-----------------------------|
| SB 74 | \$ (51,039) | \$ (51,039) |

External Investment Pool

White Pine County administers an external investment pool combining White Pine County funds with voluntary investments from the Baker TV District and the White Pine County TV District. The Board of Commissioners has overall responsibility for investment of funds, including the external investment pool in accordance with NRS 355.175. The White Pine County Treasurer is delegated investment responsibilities. Monthly, Wells Fargo determines the fair value of the investments held in the State of Nevada Local Government Pooled Investment Fund. Each participant's share is equal to their original investment plus or minus monthly allocations of interest income, and realized and unrealized gains and losses. The County has not provided nor obtained any legally binding guarantees to support the value of shares.

NOTE 5. Interfund Receivables, Payables and Transfers

With the exception of the interfund loans described below, interfund balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursed expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

The composition of interfund balances as of June 30, 2021 is as follows:

| | Due to Other Funds | | |
|---------------|-----------------------|---|--|
| \$ 354,471 | \$ | - | |
| - | | 149,759 | |
| - | | 204,712 | |
| \$ 354,471 | \$ | 354,471 | |
| | (#) (#) | Other Funds Other \$ 354,471 \$ | |

For legally distinct governments which are reported as blended component units, intergovernmental loans are reported in the financial statements as interfund due to other funds or due from other funds. For budgeting and other reporting requirements under Nevada Revised Statutes, they are treated as intergovernmental loans. The details of intergovernmental loans between the County and its blended component units are:

During the year ended June 30, 2016, the General Fund loaned the McGill Town Fund \$82,100 to finance the purchase of a fire truck. The loan has a 2% interest rate payable in 5 annual installments of \$9,140 and 5 annual installments of \$9,474.

During the year ended June 30, 2016, the General Fund loaned the Ruth Town Fund \$31,285 to finance the purchase of a fire truck. The loan has a 2% interest rate payable in 5 annual installments of \$3,483 and 5 annual installments of \$3,610.

Transfers between funds occur primarily to finance programs accounted for in one fund with resources collected in other funds in accordance with budgetary authorizations. Interfund transfers for the year ended June 30, 2021 are shown in the following table:

| Transfer in: | | Тга | insfers out: | | |
|-----------------------------|------------------|-----|--------------|-------|-----------|
| | General Gove | | | Total | |
| SB 74 Fund | \$ 2,828,216 | s | - | \$ | 2,828,216 |
| Grants | - | | 78,200 | | 78,200 |
| Nonmajor governmental funds | 2,040,666 | | 64,755 | | 2,105,421 |
| Total | \$ 4,868,882 | \$ | 142,955 | \$ | 5,011,837 |

NOTE 6. Capital Assets

The following table summarizes the changes to capital assets for governmental activities during the year:

| Governmental Activities: | | Balance /30/2020 | - | Additions | -1 | eletions | 1 | ransfers | | Balance 6/30/2021 |

| | | | |

The County has pledged future sales tax to repay\$9,161,000 in Public Safety revenue bonds issued in August 2020 with an interest rate of 2.25%. At year-end only \$2,485,673 had been drawn down and used of the loan. Proceeds from the bonds provided financing for the construction of a new public safety facility. The bonds are payable through 2053, if the total amount is used.

The County has pledged future net revenues from the County's available funds and the County's SB74 tax fund to repay \$1,000,000 in Public Safety revenue bonds issued in September 2020 with an interest rate of 0%. Proceeds from the bonds provided financing for the construction of a new public safety facility. The bonds are payable through 2031

For governmental activities, compensated absences, other post-employment benefits (OPEB), and net position liabilities are generally liquidated through the General Fund.

NOTE 8. Net Proceeds of Mines

The County receives net proceeds of mines taxes through the State of Nevada that is then apportioned by the County. The County receives a payment in June of each year as a settlement payment for the previous calendar year(s). This amount is recognized as revenue when received, consistent with prior years.

NOTE 9. Available Borrowing Capacity

The lawful County government general obligation debt limit is established under NRS 244A.059 not to exceed an amount equal to 10 percent of the total of the last assessed valuation of taxable property situated within the County. At June 30, 2021, the general obligation debt limit of White Pine County was \$66,077,028. The County has general obligation long-term debt outstanding at year-end of \$3,418,446. Accordingly, its legal borrowing capacity is \$62,658,582 at June 30, 2021.

The lawful unincorporated town government general obligation debt limit is established under NRS 269.425 not to exceed an amount equal to 25 percent of the total of the last assessed valuation of taxable property situated within the town. At June 30, 2021, the general obligation debt limit of the unincorporated towns of Lund, McGill and Ruth was \$664,639, \$2,529,064 and \$954,979 respectively. As none of these towns had general obligation debt at June 30, 2021, these amounts are also their available borrowing capacity amounts.

NOTE 10. Commitments and Contingencies

White Pine County is obligated as follows:

Grants Received

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the Federal government. Any disallowed claims, including amounts already collected, may constitute a liability in the applicable funds. The amounts, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

Litigation

The County is party to legal proceedings which normally occur in governmental operations. County officials believe these legal proceedings are not likely to have a material adverse impact on the financial position of the County.

NOTE 11. Opened/Closed Funds

The County did not open or close any funds during fiscal year 2021.

This section intentionally left blank

NOTE 12. Retirement and Pension Plan

Public Employees' Retirement System of Nevada (PERS)

Plan description

PERS administers a cost-sharing, multiple-employer, defined benefit pension plan, which includes both Regular and Police/Fire members. The System was established by the Nevada Legislature in 1947, effective July 1, 1948. The System is administered to provide a reasonable base income to qualified employees who have been employed by a public employer and whose earnings capacities have been removed or substantially impaired by age or disability.

Benefits provided

Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering the System on or after January 1, 2010, and July 1, 2015. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.

Monthly benefit allowances for members are computed as 2.5% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this factor is 2.67% of average compensation. For members entering the System on or after January 1, 2010, there is a 2.5% service time factor and for regular members entering the System on or after July 1, 2015, there is a 2.25% factor. The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

Post-retirement increases are provided by authority of NRS 286.575 - .579.

Vesting

Regular members entering the System prior to January 1, 2010, are eligible for retirement at age 65 with 5 years of service, at age 60 with 10 years of service, or at any age with 30 years of service. Regular members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or age 62 with 10 years of service, or any age with 30 years of service. Regular members who entered the System on or after July 1, 2015, are eligible for retirement at age 65 with 5 years of service, or at age 62 with 10 years of service or at age 55 with 30 years of service or any age with 33 1/3 years of service.

Police/Fire members entering the System prior to January 1, 2010, are eligible for retirement at age 65 with 5 years of service, at age 55 with 10 years of service, at age 50 with 20 years of service, or at any age with 25 years of service. Police/Fire members entering the System on or after January 1, 2010, are eligible for retirement at 65 with 5 years of service, or age 60 with 10 years of service, or age 50 with 20 years of service, or at any age with 30 years of service. Only service performed in a position as a police officer or firefighter may be counted towards to eligibility for retirement as Police/Fire accredited service.

NOTE 12. Retirement and Pension Plan, Continued

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both Regular and Police/Fire members become fully vested as to benefits upon completion of five years of service

Contributions

The authority for establishing and amending the obligation to make contributions and member contribution rates is set by statute. New hires, in agencies which did not elect the Employer-Pay Contribution (EPC) plan prior to July 1, 1983, have the option of selecting one of two contribution plans. In one plan, contributions are shared equally by employer and employee. In the other plan, employees can take a reduced salary and have contributions made by the employer (EPC).

The System's basic funding policy provides for periodic contributions at a level pattern of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due.

The System receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the System on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450.

The actuary funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contributions requirement as a percentage of salary.

For the fiscal years ended June 30, 2020, and 2021, the Statutory Employer/employee matching rate was 15.25% and 15.25% for Regular and 22.00% and 22.00% for Police/Fire.

For the fiscal years ended June 30, 2020 and 2021 the Employer-pay contribution (EPC) rate was 29.25% and 29.25% for Regular and 42.50% and 42.50% for Police/Fire.

The County's contribution for the current and two preceding fiscal years, all of which were equal to the required contributions, were as follows:

| Year Ended June 30, | Regular Fund | Police/Fire Fund |
|------------------------|-----------------|---------------------|
| 2019 | 476,756 | 689,591 |
| 2020 | 495,388 | 719,795 |
| 2021 | 513,031 | 758,769 |

NOTE 12. Retirement and Pension Plan, Continued

Investment policy

The System's policies which determine the investment portfolio target asset allocation are established by the Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System. The following was the Board adopted policy target asset allocation as of June 30, 2020:

| Asset Class | Target Allocation | Long-term Geometric Expected Real Rate of Return* |
|-----------------------|----------------------|--|
| Domestic equity | 42% | 5.50% |
| International equity | 18% | 5.50% |
| Domestic fixed income | 28% | 0.75% |
| Private markets | 12% | 6.65% |

*As of June 30, 2020, PERS' long-term inflation assumption was 2.75%.

Pension liability

Net pension liability

At June 30, 2020, the County reported a liability of \$16,241,303 for its proportionate share of the PERS' net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer allocation percentage of the net pension liability was based on the total contributions due on wages paid during the measurement period. Each employer's proportion of the net pension liability is based on their employer contributions relative to the total employer contributions for all employers for the period ended June 30, 2020. The County's proportion measured as of June 30, 2020, was 0.116750 percent, which was a decrease of 0.004400 percent from its proportion measured as of June 30, 2019.

Pension liability discount rate sensitivity

The following presents the net pension liability of the PERS as of June 30, 2020, calculated using the discount rate of 7.50%, as well as what the PERS net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current discount rate:

| | 1 | % Decrease (6.50%) | D | iscount Rate (7.50%) | 19 | % Increase (8.50%) |
|---|----|-----------------------|----|-------------------------|----|-----------------------|
| Proportionate share of Net pension (asset) / liability | \$ | 25,330,158 | \$ | 16,241,303 | \$ | 8,684,596 |

NOTE 12. Retirement and Pension Plan, Continued

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the PERS Comprehensive Annual Financial Report, available on the PERS website. https://www.nvpers.org.

Actuarial assumptions

The County's net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation rate | 2.75% |
|----------------------------|--|
| Investment rate of return | 7.50% |
| Productivity pay increase | 0.5% |
| Projected salary increases | Regular: 4.25% to 9.15%, depending on service Police/Fire: 4.55% to 13.9%, depending on service |
| Other assumptions | Rates include inflation and productivity increases Same as those used in the June 30, 2020 funding actuarial valuation |

Actuarial assumptions used in the June 30, 2020 valuation were based on the results of the experience study for the period July 1, 2012 through June 30, 2016.

The discount rate used to measure the total pension liability was 7.50% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed plan contributions will be made in amounts consistent with statutory provisions and recognizing the plan's current funding policy and cost-sharing mechanism between employers and members. For this purpose, all contributions that are intended to duns benefits for all plan members and their beneficiaries are included, except that projected contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2020.

NOTE 12. Retirement and Pension Plan, Continued

Pension expense and deferred outflows/inflows of resources related to pensions

For the year ended June 30, 2020, the County recognized pension expense for PERS of \$1,042,477. At June 30, 2020, the measurement date, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | - 7 | Deferred Jutflows of Resources | 1 | Deferred Inflows of Resources |
|---|------|--------------------------------------|----|-------------------------------------|
| Differences between expected and actual experience Changes in assumptions | \$ | 504,606 456,201 | \$ | 209,714 |
| Net difference between projected and actual earnings on pension plan investments | | 570 | _ | 613,528 |
| Subtotal Changes in proportion and differences between | | 960,807 | | 823,242 |
| contributions and proportional share of contributions | | 279,468 | | 1,470,155 |
| Contributions subsequent to the measurement date | | 1,271,800 | - | |
| Total | | 2,512,075 | \$ | 2,293,397 |
| Governmental activities | \$ | 2,512,075 | \$ | 2,293,397 |
| | \$ | 2,512,075 | \$ | 2,293,397 |
| Average expected remaining service lives | 6.13 | 3 years | | |

The \$1,271,800 reported as deferred outflows of resources related to PERS pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to PERS pensions, excluding the changes in proportion and differences between actual contributions and proportionate share of contributions, will be recognized in pension expense as follows:

| Year Ending June 30, | Deferred Outflows (Inflows) of Resources |
|-------------------------|---|
| 2022 | \$ 1,966,025 |
| 2023 | (978,197) |
| 2024 | (1,129,699) |
| 2025 | (790,380) |
| 2026 | (112,888) |
| 2027 | (7,984) |
| Thereafter | |
| Total | \$ (1,053,122) |

NOTE 12. Retirement and Pension Plan, Continued

Additional Information

The PERS' CAFR is available on the website: www.nvpers.org under Quick Links - Publications.

NOTE 13. Risk Management

The County is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County assesses these risks and manages these risks through commercial insurance companies. There were no significant changes in coverage during the year ended June 30, 2021. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past 3 fiscal years.

NOTE 14. Related Party Transactions

In the normal course of business dealings in the Community, the County is engaged in several related party transactions during the year. Below is a schedule showing the related parties, the relationship, the types of goods or services purchased during the year and the total purchases for fiscal year 2021.

| Related Party | Relationship | Goods or Services | Total Purchases |
|---------------------------------------|---|-------------------------------------|-----------------|
| Bath Lumber | Assessor, Burton Hilton | Operating/maintenance supplies | \$60,541 |
| Gust Electric | Chief Juvenile Probation Officer, Lynette Gust | Electrical supplies and services | \$2,498 |
| White Pine Fire Extinguishers, LLC | Public Works Director Bill Calderwood | Fire extinguisher inspection | \$6,539 |

Commissioners and other employees involved with the businesses cited in the above disclosure abstained from approving the expenditures listed.

In addition to the transactions that occur in the normal course of business, White Pine County utilized CARES Act Funding to provide small business assistance to businesses experiencing adverse impact from the pandemic. The County worked through the Nevada Association of Counties who engaged an independent contractor to evaluate each business based on criteria set forth in the CARES Act to determine eligibility ensuring that only objective criteria were utilized in the final decisions. The following amounts were granted to small businesses which would be considered related party.

| Business Receiving Assistance | Relationship | Amount Received | | |
|--------------------------------------|---------------------------|-----------------|--------|--|
| Aquila Ventures, LLC | Assessor, Burton Hilton | \$ | 10,000 | |
| Eastern Nevada Adventures, LLC | Assessor, Burton Hilton | \$ | 10,000 | |
| Economy Drug | Assessor, Burton Hilton | \$ | 20,000 | |
| Long Golf, LLC | Golf Pro, Randy Long | \$ | 10,000 | |
| M.B. Bybee Company, LLC | Commissioner, Shane Bybee | \$ | 20,000 | |

NOTE 15. Postemployment Benefits Other Than Pensions (OPEB)

Plan description

The County contributes to an agent multiple-employer defined benefit postemployment healthcare plan, Public Employees' Benefits Plan (PEBP). Additionally, the County administers a single-employer defined benefit healthcare plan, White Pine County Employee Health Benefits Plan (WPCEHBP). Each plan provides medical, dental, and vision benefits to eligible retired County employees and beneficiaries. In addition, PEBP provides life insurance benefits.

Benefit provisions for PEBP are administered by the State of Nevada. NRS 287.043 assigns the authority to establish and amend benefit provisions to the PEBP nine-member board of trustees. Benefit provisions for WPCEHBP are established pursuant to NRS 287.023 and amended through negotiations between the County and the respective associations. NRS 288.150 assigns the authority to establish benefit provisions to board of trustees.

Benefits provided

PEBP

PEBP closed to non-State public agency retirees on September 1, 2008 unless the agency's active employees are participating in PEBP. However, the County is responsible for a portion of the PEBP subsidy for a former employee retiring after September 1, 2008 from the State or from a Non-State public agency whose active employees participate in PEBP. For a retiree to participate in the PEPB program, the participant must be receiving a PERS benefit. PERS eligibility requirements vary by employee group and benefit type.

Those retirees and former employees who were eligible and elected PEBP coverage are entitled to a subsidy toward their premium cost based on their years of covered employment under Nevada PERS. The subsidy is shared on a pro-rata basis by the employers for which the retiree has worked and earned PERS service credit. Thus, the County is obligated to subsidize health care premiums for former employees as well as those who retired directly from the County.

The Nevada Legislature changes the benefit subsidies from time to time. The monthly subsidy continues to be based on years of credited service under Nevada PERS, though the level differs for pre-Medicare and Medicare eligible retirees. The subsidy ends at the earlier of the retiree's death or the date he or she discontinues coverage.

There are exceptions to the amounts shown below:

(a) Participants who retired before January 1, 1994 receive the 15 year subsidy, regardless of their years of covered service and

(b) Participants do not receive a subsidy if they were hired by their last employer on or after January 1, 2010, retired with less than 15 years of service and were not disabled.

NOTE 15. Postemployment Benefits Other Than Pensions (OPEB), Continued

<u>Agency subsidy for PEBP coverage for non-state pre-medicare retirees</u>: The subsidy provided to pre-Medicare retirees varies based on the type of plan selected (PPO or HMO) and by the level of coverage taken (e.g., single, two party, family, etc.). The chart below shows our understanding of monthly amounts payable beginning July 2021 for those with 15 years of PERS service. Actual pre-Medicare subsidies for July 2021, as invoiced to the County by individual, were used for the valuation.

| | PPO CDHP | | PPO Low Deductible | | Statewide EPO/HMO | | | |
|----------------------|----------|--------------------------|-----------------------|--------------|----------------------|--------------|--|--|
| Coverage Level | Ba | Base Subsidy | | Base Subsidy | | Base Subsidy | | |
| | | 15 Years of PERS Service | | | | | | |
| Retiree Only | \$ | 747.69 | S | 773.78 | S | 593.39 | | |
| Retiree + Spouse | | 1,386.95 | | 1,439.20 | | 1,078.41 | | |
| Retiree + Child(ren) | | 987.39 | | 1,023.31 | | 775.27 | | |
| Retiree + Family | | 1,626.68 | | 1,688.73 | | 1,260.28 | | |

<u>HRA contributions for non-state medicare retirees covered by the exchange</u>: Amounts paid for Medicare eligible retirees covered by the Exchange do not vary by type of plan or coverage level; they vary only by years of PERS membership service. On July 1, 2020, the monthly subsidy for retirees on the Medicare Exchange is \$13 per month per year of PERS service. The maximum benefit payable is \$260 per month.

WPCEHBP

Employees who retire from the County are eligible to continue their coverage under the health plans offered by the County to its active employees or, if they retired prior to September 1, 2008, could elect to participate in the Public Employees' Benefit Plan (PEBP).

Retirees may elect to continue their medical, dental, and vision coverage under the programs made available to the County's active employees. Those who retired from the County prior to September 1, 2007 may also choose to retain coverage in the County's life insurance plan.

The only conditions to be eligible for coverage as a retiree are:

- The employee must have qualified for and started his or her retirement benefits from Nevada PERS;
- 2. The employee was eligible for benefits while employed by the County; and
- 3. The County is the employee's last Nevada public agency employer.

Except for certain retirees grandfathers into an older benefit program, the County does not contribute toward retiree health benefits. For this closed group of members, who were in the PEBP program and opted at open enrollment to enroll in the County's plan, the County provides a subsidy, set for each retiree that is not anticipated to increase in future years.

All other retirees may elect to cover themselves and their dependents at their own expense.

NOTE 15. Postemployment Benefits Other Than Pensions (OPEB), Continued

<u>County health plan premium rates</u>: The premium rates applicable to retirees are the same as those for active employees. Even when a retiree is covered by Medicare, the premiums remain at the same rates. Monthly medical and dental/vision premiums for the County in effect from July 1, 2019 to June 20, 2020 were:

| | | | N | fedical | | | | |
|----------------------|--------|------------|-------------|------------------|--|----------------------|-------|----------|
| Coverage Level | Base P | lan Anthem | 100 C 100 C | Up Plan nthem | and the second s | th Savings ccount | Denta | l/Vision |
| Employee only | S | 757 | \$ | 845 | S | 762 | \$ | 55 |
| Employee Plus One | | 1,201 | | 1,340 | | 1,206 | | 119 |
| Employee Plus Family | | 1,434 | | 1,588 | | 1,429 | | 202 |

<u>Life insurance coverage</u>: For employees retired from the County prior to September 1, 2007 who elected to retain their County life insurance, while under age 70, the death benefit is \$10,000, plus an equal amount of accidental death and dismemberment (AD&D) coverage. The face amount decreases to \$6,500 at age 70. For retirees, premiums are currently at the rate of \$.38 per month per \$1,000 of coverage (including AD&D) coverage).

Employees covered by benefit terms

PEBP

There are no active County employees covered by or eligible for coverage under PEBP. There are 39 former employees for whom the County pays a subsidy toward the cost of PEPB coverage.

WPCEHBP

There are 122 active employees for the June 2020 valuation and 119 are participating in the medical program while 3 were waiving coverage. There are 14 retirees covered by the County's healthcare and life insurance plans.

Contributions

PEBP

County contributions to the Plan occur as benefits are paid to retirees. In this PEBP program, the only benefit payments occur in the form of direct payments to PEBP on behalf of currently covered retirees. Contributions to the Plan from the County were \$48,099 for the year ended June 30, 2021 (measurement date June 30, 2020).

WPCEHBP

County contributions to the Plan occur as benefits are paid to retirees. Benefit payments may occur in the form of direct payments for premiums ("explicit subsidies") and/or indirect payments to retirees in the form of higher premiums for active employees ("implicit subsidies"). Contributions to the Plan from the County were \$59,690 for the year ended June 30, 2021 (measurement date June 30, 2020).

61

NOTE 15. Postemployment Benefits Other Than Pensions (OPEB), Continued

Plan financial reports

Information about PEBP's financial report is available at <u>https://pebp.state.nv.us/</u>. WPCEHBP does not issue a separate financial report.

OPEB liability

Net OPEB liability

At June 30, 2021, the County reported a net OPEB liability of \$817,326 for PEBP and \$1,328,083 for WPCEHBP. The net liability was measured as of June 30, 2020 and the total liability was determined by an actuarial valuation as of June 30, 2020. An OPEB trust has not been established so the total liability is equal to net liability. There are no assets accumulated in a trust that meet the criteria in GASB 75 (paragraph 4) to pay related benefits. The total OPEB liability as of June 30, 2021 reflects a change in the use of discount rates of 2.79% as of June 30, 2019 and 2.66% as of June 30, 2020. There were no other significant changes of actuarial assumptions. The projections are based on established patterns of practice.

OPEB liability discount rate sensitivity

The following presents the net OPEB liability calculated using the discount rate of 2.66%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current discount rate:

| | 1% Decrease | | Di | scount Rate | 1% Increase | | |
|------------------------------|-------------|-----------|----|-------------|-------------|-----------|--|
| Net OPEB liability - PEBP | S | 923,858 | \$ | 817,326 | \$ | 730,096 | |
| Net OPEB liability - WPCEHBP | | 1,452,015 | | 1,328,083 | | 1,216,494 | |

OPEB liability healthcare cost trend rates sensitivity

The following presents the net OPEB liability calculated using current healthcare cost trend rates, as well as what the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than current healthcare cost trend rates:

| | 1% Decrease | | Me | dical Trend | 1% Increase | |
|------------------------------|-------------|-----------|----|-------------|-------------|-----------|
| Net OPEB liability - PEBP | \$ | 734,332 | \$ | 817,326 | \$ | 916,207 |
| Net OPEB liability - WPCEHBP | | 1,187,787 | | 1,328,083 | | 1,497,465 |

NOTE 15. Postemployment Benefits Other Than Pensions (OPEB), Continued

Actuarial assumptions

PEBP

The total OPEB liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation rate | 2.5% |
|------------------|---|
| Salary increases | N/A - no active employee in this plan |
| Discount rate | 2.79% as of June 30, 2019 |
| | 2.66% as of June 30, 2020 |
| Funding method | Entry age normal cost, level percent of pay |

The basic mortality rates used in this valuation are based on the most recently published report of the Nevada Public Employees Retirement System, dated June 30, 2019, except for a different basis used to project future mortality improvements.

Non-disabled life rates for regular employees:

Males and Females: Headcount-Weighted RP-2014 Healthy Annuitant Table Disabled life rates for regular employees: Males and Females: Headcount-Weighted RP-2014

Disabled Retiree Table, set forward 4 years

These rates were then adjusted to anticipate future mortality improvement by applying MacLeod Watts Scale 2020 on a generational basis from 2018 forward.

The discount rate was changed from 2.79 % as of June 30, 2019 to 2.66% as of June 30, 2020, based on the published change in return for the applicable municipal bond index.

NOTE 15. Postemployment Benefits Other Than Pensions (OPEB), Continued

WPCEHBP

The total OPEB liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation rate | 2.50% |
|------------------|---|
| Salary increases | 3.00% |
| Discount rate | 2.66% |
| Funding method | Entry age normal cost, level percent of pay |

The demographic actuarial assumptions used in this valuation are based on the most recently published report of the Nevada Public Employees Retirement System, dated June 30, 2019, which covers the employees included in this valuation except for a different basis used to project future mortality improvements.

Non-disabled life rates for regular employees: Males and Females: Headcount-Weighted RP-2014 Healthy Annuitant Table Disabled life rates for regular employees: Males and Females: Headcount-Weighted RP-2014 Disabled Retiree Table, set forward 4 years Pre-retirement life rates for regular employees: Males and Females: Headcount-Weighted RP-2014 Employee Table

These rates were then adjusted to anticipate future mortality improvement by applying MacLeod Watts Scale 2020 on a generational basis from 2018 forward (i.e. mortality is projected to improve each year until the payments anticipated in any future year occur).

The discount rate was changed from 2.79% as of June 30, 2019 to 2.66% as of June 30, 2020, based on the published change in return for the applicable municipal bond index.

Plan fiduciary net position

Detailed information about PEBP's fiduciary net position is available in a separately issued PEBP financial report. WPCEHBP does not issue a separate financial report.

OPEB expense

For the year ended June 30, 2021, the County recognized OPEB expense for PEBP of \$79,952 and for WPCEHBP of \$147,422.

Deferred outflows/inflows of resources related to OPEB

At June 30, 2021, the County reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

PEBP

| Contributions subsequent to the measurement date | Ou | Deferred tflows of esources | Deferred Inflows of Resources | |
|--|----|-----------------------------------|----------------------------------|--|
| Contributions subsequent to the measurement date | \$ | 48,099 | \$ | |
| Total | \$ | 48,099 | \$ | |

The amount \$48,099 reported as deferred outflows of resources related to OPEB resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the subsequent fiscal year.

WPCEHBP

| | Oi | Deferred ntflows of esources | Deferred Inflows of Resources | | |

| Total | \$ | (175,937) |
| | | |

Combined balances for OPEB plans

The combined balances for both the PEBP and WPCEHBP OPEB plans as of and for the year ended June 30, 2021 are as follows:

| | 3 | PEBP | V | VPCEHBP | Combined | | |
|--------------------|---------------|---------|----|-----------|----------|-----------|--|
| Net OPEB liability | \$ | 817,326 | \$ | 1,328,083 | \$ | 2,145,409 | |
| Deferred outflows | | 48,099 | | 114,118 | | 162,217 | |
| Deferred inflows | | ÷. | | 230,365 | | 230,365 | |
| OPEB expense | | 79,952 | | 147,422 | | 227,374 | |

WHITE PINE COUNTY Notes to the Financial Statements June 30, 2021

NOTE 16. Net Proceeds Mitigation

NRS 362.171 states that the governing body of a county may, by resolution, establish a fund to stabilize the operation of the county and mitigate the effects of a decline in revenue received by the county from the tax on the net proceeds of minerals during the 2 fiscal years immediately preceding the current fiscal year or the opening or closing of an extractive operation from the net proceeds of which revenue has been or is reasonably expected to be derived pursuant to this chapter. For the fiscal year ended June 30, 2010, the County's Net Proceeds Mitigation Fund was reported as a separate major fund in the financial statements. However, in accordance with GASBS 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the County's Net Proceeds Mitigation Fund is included with the General Fund, as restricted fund balance, beginning with the year ended June 30, 2011. The NRS also states that the money in this fund may be used if appropriated by the board of county commissioners only to mitigate adverse effects upon the county which are listed above. Before authorizing the expenditure of the money pursuant to the NRS, the board of trustees shall hold at least one public hearing on the matter.

During the fiscal year ended June 30, 2021, the County complied with the provisions of this section

The County implemented GASB 75 in fiscal year 2018. Prior year information is not available.

WHITE PINE COUNTY Notes to Required Supplementary Information June 30, 2021

NOTE 1. OPEB - Factors that Affect Trends

There are no factors (e.g. changes in benefit terms, the use of different assumptions, changes in investment policies) that significantly affect trends in the amounts reported in the required schedules.

NOTE 2. OPEB – Plan Assets

There are no assets accumulated in a trust that meet the criteria in GASB 75 (paragraph 4) to pay related benefits.

In 2011 the County implemented GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. This replaced the categories that were previously utilized to classify fund balance. The old categories of reserved and unreserved were replace with categories that provide better definition of the status of funds. Reserved fund balance was replaced with the non-spendable, restricted, committed and assigned fund balance. Unreserved fund balance was replaced with unassigned fund balance.

OTHER COMMUNICATIONS FROM INDEPENDENT AUDITORS

This page intentionally left blank

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable County Commission White Pine County Ely, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of White Pine County, Nevada, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated November 19, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered White Pine County, Nevada's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify a deficiency in internal control, described in the accompanying *Schedule of Findings and Questioned Costs* as item 2020-001 that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statement. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

White Pine County's Response to Findings

The County's response to the finding identified in our audit is described in the accompanying *Corrective Action Plan.* The County's response was not subjected to the auditing procedures applied in the audit of the financial statements and; accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance With Statutes and Administrative Code in Accordance with NRS 354.624(4)(C) and 354.6241

The Honorable County Commissioners White Pine County Ely, Nevada

We have audited the basic financial statements of White Pine County, Nevada, for the year ended June 30, 2021, and have issued our report thereon dated November 19, 2021. Our audit also included test work on White Pine County, Nevada's compliance with selected requirements identified in the State of Nevada Revised Statutes (NRS) including, but not limited to, NRS section 354.624 and section 354.6241.

The management of White Pine County, Nevada is responsible for the County's compliance with the NRS and regulations (Nevada Administrative Code). Our responsibility is to express an opinion on compliance with those requirements based on our audit and make specific statements regarding funds established and the status of prior year findings and recommendations; accordingly, we make the following statements:

There were no prior year compliance findings. We noted no new instances of noncompliance during fiscal year 2021.

White Pine County has established several funds in accordance with NRS 354.624 as follows:

Funds whose balance is required to be used only for specific purposes or carried forward to the succeeding fiscal year in any designated amount:

Fiduciary Funds: Baker TV District Property Sales Trust Genetic Marker Testing State of Nevada State Indigent Accident Trust and Agency Accounts Range Improvement

White Pine TV District #1 Lund Irrigation City of Ely Domestic Violence Hospital District School Operating Fund State of Nevada Child Support Special Revenue Funds: Road Fund Agricultural District 13 Agricultural Extension Recorder Technology Fees Clerk Technology Fees Library Gift Fund SB74 Fund McGill Town Wildlife Management Fund Senior Center Juvenile Court Admin Fees Justice Court Facilities Drug Rehab Program District Court Admin Fees Ely Pool Project State of Nevada China Springs State Indigent Forensic Services Justice Court Admin Fees Grant Projects **CCPBG Grant** Violence Against Women District Court House Arrest **Building and Planning**

Regional Transportation Emergency Medical Services Indigent Assessor Technology Fees Mining Map Revenue Lund Town Golf Course Ruth Town Victim Impact Panel Ely Pool Sales Tax Industrial Park Ely Justice Court Collections 911 Surcharge D.A.R.E. Grant Camp Success Legal Aid Emergency Management Grant Fire District Operating Task Force Grant/Sheriff Justice Court House Arrest Public Transit Fund Tri-County Weed

Capital Project Funds: Airport Improvements

Capital Improvements

White Pine County appears to be using the above listed funds expressly for the purposes for which they were created in accordance with NRS 354.624. The funds are being administered in accordance with Generally Accepted Accounting Principles and the reserves, as applicable, appear reasonable and necessary to carry out the purposes of the funds. Sources of revenues available and fund balances are reflected in the individual fund financial statements.

The County has complied with the provision of NRS 354.6115. The County has a stabilization fund that is combined with the general fund for reporting purposes.

NRS 354.624 requires that a schedule of all fees imposed by the County which are subject to the provisions of NRS 354.5989 be presented. The County does not impose any fees that are subject to NRS 354.5989.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether material noncompliance with the requirements referred to above occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, White Pine County complied, in all material respects, with the requirements identified above for the year ended June 30, 2021.

This report is intended solely for the use of White Pine County, the State of Nevada, and other audit agencies and should not be used for any other purpose. This restriction is not intended to limit the distribution of this report, which upon acceptance by White Pine County is a matter of public record.

Huiter Fundede, PLIC

WHITE PINE COUNTY Nevada Revised Statute 354.6113 For the Year Ended June 30, 2021

The County created the Capital Improvement Fund under the authority of NRS 354.6113. This statute provides for construction of capital projects. The following are affirmative statements pertaining to the items required by the statute.

- Interest earned on the cash balance of the fund was credited to the fund.
- The money in the fund was used only for the construction of capital projects which were included in the plan for capital improvement of the local government prepared pursuant to NRS 350.013.
- In fiscal year 2021, the money from the fund was used for improvements to the courthouse and senior center as specified in the capital improvement plan for the County.
- According to the fiscal year 2022 budget, an allocation of ad valorem taxes, net proceeds of minerals, and interest income will be deposited in the fund next year.
- In the next fiscal year, the County plans to use the remaining funds to continue construction on the courthouse and make other improvements to the senior center, and justice center project.
- According to the fiscal year 2022 approved budget, the County plans the accumulation of \$325,276 in the fund for use as specified in the County's capital improvement plan.

The County complied with the provisions of NRS 354.6113.

WHITE PINE COUNTY Notes to the Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2021

Reporting Entity:

The accompanying schedule of expenditures of federal awards presents the activity or expenditure of all federal awards programs of White Pine County, Nevada (the County) for the year ended June 30, 2021. The County's reporting entity is defined in Note 1 of the basic financial statements. All expenditure of federal awards received directly from federal agencies as well as federal awards passed through other government agencies are included in the schedule.

Basis of Accounting:

This accompanying schedule of expenditures of federal awards has been prepared on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance).

Relationship to Basic Financial Statements:

Expenditures of federal awards have been reported in the following funds:

| Governmental-Type Activities: | | |
|---------------------------------|---------|-----------|
| General fund | \$ | 3,772 |
| Grant Projects | | 2,159,709 |
| SB 74 | | 3,485,673 |
| Non-major funds: | | |
| Road fund | | 188,758 |
| Task Force | | 88,038 |
| Violence Against Women | | 198,677 |
| Indigent | | 309,244 |
| Emergency Management Grant fund | | 134,252 |
| Library Gift Fund | | 14,180 |
| Senior Center | | 100,630 |
| Airport Improvement fund | | 97,242 |
| CSBG Fed Grant/Indigent | <u></u> | 101,474 |
| Total | S | 6,881,649 |

Indirect Cost Rate:

The County did not elect to use the 10% de minimis indirect cost rate for fiscal year 2021.

Federal Loans and Loan Guarantee Programs Outstanding:

The County received funding from the United States Department of Agriculture for CFDA #10.766 Community Facilities Loans and Grants in fiscal year ending June 30, 2021 in the amount of \$3,485,673. The balance of the loans outstanding at June 30, 2021 is \$3,418,446.

WHITE PINE COUNTY Notes to the Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2021

Subrecipients:

The County had no subrecipients in fiscal year 2021.

Independent Auditor's Report on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance in Accordance with the Uniform Guidance

The Honorable County Commissioners White Pine County Ely, Nevada

Report on Compliance for Each Major Federal Program

We have audited White Pine County, Nevada's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of White Pine County, Nevada's major federal programs for the year ended June 30, 2021. White Pine County, Nevada's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of White Pine County, Nevada's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about White Pine County, Nevada's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of White Pine County, Nevada's compliance.

Opinion on Each Major Federal Program

In our opinion, White Pine County, Nevada, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control over Compliance

Management of White Pine County, Nevada is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered White Pine County, Nevada's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of White Pine County, Nevada's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance control over compliance with a type of compliance requirement of a federal will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

WHITE PINE COUNTY Schedule of Findings and Questioned Costs For the Year Ended June 30, 2021

Section II - Financial Statement Findings

INTERNAL CONTROL OVER FINANCIAL REPORTING

Material Weaknesses:

No material weaknesses noted in fiscal year 2021.

Significant Deficiencies:

2020-001 Bank Reconciliations

Criteria: Bank reconciliations for the County's bank accounts should be performed monthly to prevent fraud or errors from occurring in financial reporting. The reconciliations should be performed within 30 to 45 days of receipt of the bank statements.

Condition: The County is two to three months behind on their monthly bank reconciliations for the main checking account.

Cause: The County changed accounting systems in July of 2019 which disrupted the reconciliation processes at the County. The personnel assigned to reconcile the main operating account were unable to perform the bank reconciliation for that account in the new accounting system and are still in the process of catching up.

Effect: Misstatements due to fraud or error, may not have been prevented or detected in a timely manner.

Recommendation: We recommend the County implement controls to ensure that the bank reconciliations are preformed within 30 to 45 days of the receipt of the bank statements. The County Commission may consider requiring the completed reconciliations be presented to the County Commission in regular meetings to ensure timely completion.

COMPLIANCE AND OTHER MATTERS

Compliance:

No compliance matters reported in fiscal year 2021.

Other Matters:

No other matters reported in fiscal year 2021.

WHITE PINE COUNTY Schedule of Findings and Questioned Costs For the Year Ended June 30, 2021

Section III - Federal Award Findings and Questioned Costs

INTERNAL CONTROL OVER FEDERAL AWARDS

No internal control items noted in fiscal year 2021.

COMPLIANCE AND OTHER MATTERS

Compliance:

No compliance findings noted in fiscal year 2021.

Other Matters:

No other matters reported in fiscal year 2021.

Summary Schedule of Prior Year Audit Findings

INTERNAL CONTROL OVER FINANCIAL REPORTING

Material Weaknesses:

2020-001 Bank Reconciliations

Criteria: Bank reconciliations for the County's bank accounts should be performed monthly to prevent fraud or errors from occurring in financial reporting. The reconciliations should be performed within 30 to 45 days of receipt of the bank statements.

Condition: As of October 15, 2020, the County had not prepared monthly bank reconciliations for the main checking account from July 2019 to September 2020.

Cause: The County changed accounting systems in July of 2019 which disrupted the reconciliation processes at the County. The personnel assigned to reconcile the main operating account were unable to perform the bank reconciliation for that account in the new accounting system.

Effect: Misstatements due to fraud or error, may not have been prevented or detected in a timely manner.

Recommendation: We recommend the County implement controls to ensure that the bank reconciliations are preformed within 30 to 45 days of the receipt of the bank statements. The County Commission may consider requiring the completed reconciliations be presented to the County Commission in regular meetings to ensure timely completion.

Status: Finding was downgraded to significant deficiency. Procedures are still being implemented.

Significant Deficiencies:

No significant deficiencies noted in fiscal year 2020.

COMPLIANCE AND OTHER MATTERS

Compliance:

No compliance findings noted in fiscal year 2020.

Corrective Action Plan for White Pine County Audit for Fiscal Year Ended June 30, 2021

INTERNAL CONTROL OVER FINANCIAL REPORTING

Significant Deficiencies

2020-001 Bank Reconciliations

Criteria: Bank reconciliations for the County's bank accounts should be performed monthly to prevent fraud or errors from occurring in financial reporting. The reconciliations should be performed within 30 to 45 days of receipt of the bank statements.

Condition: The County is two to three months behind on their monthly bank reconciliations for the main checking account.

Cause: The County changed accounting systems in July of 2019 which disrupted the reconciliation processes at the County. The personnel assigned to reconcile the main operating account were unable to perform the bank reconciliation for that account in the new accounting system and are still in the process of catching up.

Effect: Misstatements due to fraud or error, may not have been prevented or detected in a timely manner.

Recommendation: We recommend the County implement controls to ensure that the bank reconciliations are preformed within 30 to 45 days of the receipt of the bank statements. The County Commission may consider requiring the completed reconciliations be presented to the County Commission in regular meetings to ensure timely completion.

Corrective Action

White Pine County will take the following steps to address the identified Significant Deficiency:

- The Treasurer will include with the required monthly report to the Board of County Commissioners a copy of the most recent bank reconciliation for each bank account required to be reconciled by their office.
- If the reconciliation for any account is behind more than 45 days from the statement date, the Treasurer will include an outline of the steps to be taken to correct the situation.
- The Audit Committee will be notified any time that a bank account is not reconciled within 3 months of the statement date.
