and

NEVADA STATE HISTORIC PRESERVATION OFFICE

WHEREAS, this Memorandum of Understanding (MOU) is entered into between the City of Sparks, Nevada (City) and the Nevada State Historic Preservation Office (SHPO) to set forth procedures for administration of grants from the U.S. Department of Housing and Urban Development (HUD) under the Community Development Block Grant (CDBG) program, the HOME program and the Housing and Economic Recovery Act of 2008 (the Programs); and

WHEREAS, the Department of Housing and Urban Development (HUD) require grantees to consult with State Historic Preservation Offices in accordance with 24 CFR Part 58 under the Programs where environmental review responsibilities have been delegated to the City of Sparks; and

WHEREAS, the City has determined that the administration of these Programs may have an effect on historic properties and the City has consulted with the SHPO pursuant to 36 CFR 800, the regulations implementing Section 106 of the National Historic Preservation Act (54 U.S.C. §306108); and

NOW THEREFORE, the City and the SHPO agree that the Programs shall be administered in accordance with the following stipulations to satisfy the City's Section 106 responsibilities for all individual undertakings of the Programs within the jurisdiction of the City.

STIPULATIONS

The City will ensure that the following measures are carried out.

I. AREA OF POTENTIAL EFFECTS

For purposes of this MOU, the Area of Potential Effects (APE) will be limited to the subject parcel and adjacent parcels (include surrounding parcels such as those across the street) in instances where the project work affects the exterior of the property.

II. IDENTIFYING HISTORIC PROPERTIES

- A. The Community Development Department, within the City, will determine the age of all properties in the APE eligible for rehabilitation within the City's implementation

of the Programs (and adjacent properties in instances where the rehabilitation work affects the exterior of the property) by consulting appropriate public documents, such as documents indicating purchases and sales of property on file with the Washoe County Assessor's Office, Washoe County, Nevada.

- B. If public records indicate that the properties in the APE are less than fifty (50) years of age and if the property does not appear to be of extraordinary historic or architectural importance and the proposed changes do not affect the exterior of the house or its surrounding landscape, no further consultation with the SHPO is required and the project may proceed, as determined by the City. The City representative will retain copies of all determinations made under this stipulation for public inspection consistent with public records requirements.
- C. If public records indicate that a property is fifty (50) years of age or older (hereinafter identified as a "historic resource"), it must be evaluated for potential historic or architectural importance unless the property is exempt from further consultation with the SHPO as specified in Stipulation III, Exempt Activities.
- D. If the project affecting a property fifty (50) years old or older is not exempt from further consultation with the SHPO, the following documentation shall be submitted to the SHPO for review.
 - 1. Age of the property, as indicated on Washoe County Assessor records.
 - 2. Color or digital photograph(s) of the property, showing all four elevations or as many sides as possible to accurately represent the historic property and structure/s and surrounding neighborhood, labeled appropriately.
 - 3. Map illustrating the APE and indicating the location of all historic properties in the APE.
 - 4. Brief description of the property, to include address and APN.
 - 5. Description of rehabilitation work to be completed on the property.
- E. In accordance with "Guidelines for Section 106 Submissions to the Nevada State Historic Preservation Office", the SHPO shall have thirty (30) days upon receipt of hard copy documentation by the City to offer comments. Failure of the SHPO to respond within this time period shall not preclude the City from proceeding with a project.
- F. If the City, in consultation with the SHPO, determines that the historic properties are not eligible for inclusion in the National Register of Historic Places (NRHP), the City representative will document such determination in the file and the project may proceed.
- G. If the SHPO and the City disagree regarding the potential eligibility of the property,

the City will employ a professional architectural historian to inventory the property and recommend NRHP eligibility to the City and the SHPO.

- H. Following the inventory, should the SHPO and the City fail to agree on the eligibility of the property to the NRHP, the City shall send appropriate documentation to the Keeper of the National Register (Keeper) for an official determination. Failure of the Keeper to respond to the City within forty-five (45) days of submission of documentation to the Keeper shall not preclude the City from proceeding with a project.
- I. If a historic property is determined eligible for inclusion in the NRHP, either through consensus between the City and the SHPO, or through a formal determination from the Keeper, and the project does not qualify as an exempt activity as defined in Stipulation III, the City shall consult with the SHPO as per 36 CFR Part 800.4(d).
