

A GUIDE TO

NEVADA'S Historical Markers

NEVADA
**STATE HISTORIC
PRESERVATION OFFICE**

A Guide to Nevada’s Historical Markers
6th Edition, 2021

Acknowledgments

This guide was created by the Nevada State Historic Preservation Office.
Author: Rayette Martin M.A. Photographs provided by the Special Collections and University Archives Department, University of Nevada, Reno. David J. Harrison, Ph.D. shared his vision for the booklet along with a number of videos that can be found on the Nevada DCNR YouTube channel.

History of the Marker Program

In 1967, the Nevada State Legislature initiated the marker program. These roadside markers bring attention to the places, people, and events that make up Nevada’s heritage. They are as diverse as the counties they are located within and range from the typical mining boom and bust town to the largest and most accessible petroglyph sites in Northern Nevada.

USING THIS GUIDE

Topics

The main topics of the full marker are provided in gray. Markers listed by topic can be found in the back of this guide.

Marker Number

Marker Name

1. Empire and the Carson River Mills

MINING-RAILROAD Comstock Lode gold and silver ore was hauled to the mills for over 40 years. Traces of Empire and its mills can still be seen today.

Coordinates

Latitude and Longitude is provided to help locate the markers using a GPS or programs like Google Maps. The coordinates are provided in WGS 84 and are estimated to the best of our ability.

39.187312, -119.706358 [stone]

Marker Type

Examples of marker types are on the next page.

QR Code

Use your smartphone camera to scan it and a link will pop up. This link is for the webpage of the marker. This page contains up-to-date information on the marker. Note: This only works when your cell phone has internet service.

MAPS

- Maps are not to scale
- North at the top of the page
- Locations of markers, including the coordinates, are approximate
- An interactive map is available on the SHPO website

VIDEOS

Some marked locations have been highlighted in the video series, Nevada History Adventures. A playlist of these videos can be found on the nevadadcnr YouTube Channel.

Stone Marker
256. Historic Transportation

Stone Marker
15. Tonopah

Most of the markers across the state are large blue metal markers. However, there are a variety of other marker styles out there. For this guide they have been simplified into a few categories (blue, blue small, concrete, and stone). Sometimes, the markers are on buildings, fences, or metal stands. Be aware that each category contains its own variety as well. For example, see the two different types of stone markers pictured above.

39.152929, -119.767267 [blue]

196. The United States Mint Carson City, Nevada
ARCHITECTURE-EVENT In 1862,

Congress passed a bill establishing a branch mint in the Territory of Nevada. It was housed in the original Carson City building built from sandstone blocks quarried at the Nevada State Prison.

39.167733, -119.767309 [stone]

213. Lakeview
LUMBER-RAILROAD In 1873,

the Virginia and Gold Hill Water Company built a world famous 76 mile box flume and pipeline system that furnished water to Virginia and Carson Cities. From 1881-1896, Lakeview was a lumber storage area and timber products were shipped to the Comstock mines and other points via the V. & T.R.R cars.
39.207966, -119.802901 [concrete]

235. Camp Nye 1864-1865
MILITARY Established one-half mile to the north in October 1864

(During the Civil War), Camp Nye served as the home base for the men of companies "D" and "E," 1st Nevada Volunteer Cavalry. Time has obliterated all vestiges of the barracks, stables and other facilities.
39.162420, -119.794175 [blue]

243. Corbett-Fitzsimmon Flight
EVENT On March 17, 1897, at an arena located on this site, Carson City played host to Nevada's first World Championship

250. State Printing Building
ARCHITECTURE Completed in 1886, this building is the second oldest structure built by the State within the Capitol Complex. Architects Morrill J. Curtis and Seymour Pixley, designed the Italianate structure to complement the older State Capitol.
39.163794, -119.765026 [on building]

252. Rinckel Mansion
ARCHITECTURE-MINING-RANCHING/FARMING In 1863, Rinckel settled

in Carson City, he raised livestock and supplied the mining and timber districts surrounding Eagle Valley with meat. Charles H. Jones, a French-schooled designer, constructed Rinckel's High Victorian Italianate architectural residence in 1876.
39.164034, -119.768264 [on building]

258. Charles W. Friend House, Observatory & Weather Station
EVENT-PERSON This is the site of the house and observatory of Nevada's first weatherman, astronomer, and seismologist, Charles William Friend.
39.164080, -119.764283 [concrete]

259. The Governor's Mansion
ARCHITECTURE-PERSON Reno architect George A. Ferris designed this neoclassical mansion in 1909. It is the only home ever built for Nevada's highest elected official.
39.167279, -119.773000 [on fence]

84. Jedediah Strong Smith
PERSON-TRAPPING From May to June 1827, Jedediah Smith, explorer and trapper, found a route from California's central valley to the Great Salt Lake Valley in Utah. He became the first European American to completely cross what is now Nevada. Since Smith's journal and map have never been found, his exact route is unknown.
39.291445, -114.837921 [blue]

Company laid 150-miles of track from Cobre, on the Southern Pacific line, to Ely in 1905-1906. Ore was loaded into railroad gondolas at Copper Flat mines, west of Ely, and transported by rail to the smelter at McGill. Passenger service and the "school train" carrying McGill youth to Ely High School ended in 1941. With the closing of local copper mines in 1983, the railroad ceased operations. Currently, part of the line serves the Nevada Northern Railway Museum for live steam rides. The East Ely shop complex for the Railway was listed as a National Historic Landmark District in 2006.
39.252605, -114.878593 [blue]

98. Osceola 1872-1940
MINING-RANCHING/FARMING
Osceola, most famous of the White Pine County gold producers, was one of the longest-lived placer camps in Nevada. The camp produced nearly \$5 million, primarily in gold, with some silver, lead, and tungsten. It was a good business town because of its location near the cattle and grain ranches and gardens in the Spring and Snake Valleys.
39.071317, -114.449518 [blue]

184. Ward Charcoal Ovens
ARCHITECTURE-LUMBER-MINING
These ovens were constructed during the mid 1870's and are larger and of finer construction than most other ovens found in Nevada. The charcoal was used in the smelters at nearby Ward. As railroads penetrated the west, charcoal was replaced by coke made from coal, and the charcoal industry faded.
39.037381, -114.846373 [blue]

99. Taylor
MINING Silver and gold were discovered by Taylor and John Platt in 1873 in what was to become Taylor, a typical mining community. In seven years, the town boasted a population of 15,000 people. By 1886, Taylor was the center of county activity. Mining continued intermittently until 1919. World War II renewed mining activity temporarily.
39.088917, -114.752759 [blue]

269. Ely, Forging The Link
MINING-RAILROAD In the mid to late 1800s, Ely was surrounded by silver, gold, and copper mines. In 1887, it became the seat of White Pine County. Ely was the headquarters for the Nevada Northern Railway which connected Ely to the transcontinental railroad. In 1913, a road through Ely was incorporated into the transcontinental Lincoln Highway.

9. Copper Country

 MINING The famed open-pit copper mines of eastern Nevada, including the Liberty Pit, are located two miles south of this point. Through the first half of the twentieth century, this area produced nearly a billion dollars in copper, gold, and silver. The huge mounds visible from here are waste rock, which was removed to uncover the ore.
39.283589, -114.964238 [concrete]

Express placed a change station at the west opening. From 1861 to 1869, Butterfield's Overland Mail and Stage established a station here that grew into a small temporary town. Soldiers from Fort Ruby discovered gold in the canyon in 1863, leading to the creation of the town of Egan and a mining district. Like Cherry Creek, to the north, Egan boomed and busted into the 1920s before mining ceased.
39.900905, -114.886081 [blue]

51. Schellbourne

 MILITARY-MINING-PONY EXPRESS- RANCHING/FARMING Schellbourne was located approximately four miles east of this marker. The Pony Express established a mail station there in 1860. Fort Schellbourne, a small military post, protected the station. In the early 1870s, silver ore was discovered in the mountains immediately to the east. After mining dried up, the town was the headquarters for various ranches.
39.797254, -114.741044 [blue]

 53. Hamilton MINING The mines of the White Pine district were first established in 1865. Between 1868 and 1875, they supported many thriving towns including Hamilton, Eberhardt, Treasure City, and Shermantown. These communities, now all ghost towns, are clustered eleven miles south of this point.
39.353654, -115.394466 [blue]

52. Cherry Creek

 MILITARY-MINING-PONY EXPRESS- TRAIL/ROAD The town of Cherry Creek was part of a network of mining districts. The town peaked in 1882, with over 1,800 residents. Egan Canyon, to the south, was a thoroughfare for Howard Egan and the Mormon Battalion in 1855. In 1860, the Pony

 54. Ward Mining District MINING The ghost town of Ward, in the foothills of the Egan Range, lies some eight miles west of here. Booming from 1876 until 1882, with a peak population of 1,500, Ward was somewhat of a lawless mining camp. The town was abandoned by the late 1880s, but new discoveries and better mining methods prompted a resurgence of activity in 1906 and again in the 1960s.

234. Moana Springs
ARCHITECTURE Opened as a resort in 1905, Moana Springs had a large bath house with a pool fed by hot springs, a hotel and other recreation amenities. The City of Reno purchased Moana in 1956 and the remaining buildings were demolished the next year to make way for a new recreational complex.
39.491117, -119.800011 [blue small]

238. Huffaker's
LUMBER-PERSON-RAILROAD-RANCHING/FARMING-TELEGRAPH In 1858, Granville W. Huffaker drove cattle into Truckee Meadows and established his ranch. In 1862, a stage line and post office were added. For ten years, Huffaker's was the center of the community. In 1875, a pacific lumber and flume operation from the Lake Tahoe Basin was completed. At the terminus of the flume, the Virginia and Truckee Railroad opened a depot and a telegraph office. They also constructed a spur where workers transferred timber.
39.441341, -119.771873 [blue]

240. Coney Island
ARCHITECTURE From 1909-1912, Coney Island was among the most elaborate amusement parks of its day. An aircraft assembly plant occupied the site in the early "twenties" and an auto court was established here later. All of the buildings were

either burned or torn down when Interstate 80 was constructed.
39.534931, -119.780546 [blue]

245. Frederik Joseph DeLongchamps
ARCHITECTURE-PERSON Frederic Joseph DeLongchamps was Nevada's foremost architect of his time. He designed many of Nevada's civil and legal buildings.
39.524939, -119.812356 [concrete]

246. The Great Incline of the Sierra Nevada
LUMBER Located on the mountain above are the remnants of the "Great Incline of the Sierra Nevada". Completed in 1880, this lift carried cordwood and lumber up 1,800 feet to a v flume which carried the lumber down to Washoe Valley where it was loaded on wagons for use in the mines of the Comstock.
39.236793, -119.928791 [blue]

247. Site of Nevada's First Public Library
EVENT-PERSON In 1895, Frank H. Norcross began persuading the Nevada Legislature to enact a law to establish public libraries. The state's first public library building was erected on this site in 1904, with donations from philanthropist Andrew Carnegie and pioneer Myron C. Lake. It remained in service until 1930 and was demolished in 1931.
39.524939, -119.812356 [concrete]

248. Virginia and Truckee Railroad Right-of-Way
CHINESE-PERSON-RAILROAD The Virginia & Truckee Railroad was built between

terminal at Steamboat. Materials for the silver mines were transferred to freight wagons for the steep haul to Virginia City. Fires destroyed the luxurious buildings, but the therapeutic waters remained and their mineral muds are sought by cosmeticians and race horse owners. President Ulysses S. Grant even visited the springs in 1879.

39.379958, -119.742317 [blue]

210. N.C.O. Railroad Depot —

1910

ARCHITECTURE-PERSON-RAILROAD

This railroad depot was built in 1910 along the Nevada-California-Oregon Railway.

Architect Fredric DeLongchamps designed the building. He incorporated several architectural styles in the station (mission, Italianate, and Romanesque Revival). The depot continued to serve the traveling public until 1937.

39.530944, -119.809479 [blue]

212. Galena

LUMBER-MINING

Galena began as an important lumbering center and mining camp. The Hatch brothers' quartz mill and smelter were among the earliest erected on this side of the Sierra. Eleven sawmills were operating by 1863. After two disastrous fires in 1865 and 1867, Galena was abandoned.

39.362563, -119.817533 [blue]

218. Geiger Station

TRAIL/ROAD

Seven-tenths of a mile east of this marker was Geiger's Station, the largest station on the Geiger Grade Toll Road, the main thoroughfare between the Comstock Lode and the ranches of Truckee Meadows. Following the extension of the

Virginia & Truckee Railroad to Reno in August 1872, the toll road fell into disuse, and a few years later it became a public highway.

39.375751, -119.715927 [blue]

220. The Fight of the Century

EVENT-PERSON

At this site on July 4,

1910, Reno hosted 'The Fight of the Century,' a heavyweight championship boxing

match between John Arthur Jack Johnson, the

African American title holder, and James J. 'Jim'

Jeffries, a former champion seeking to regain

the title he had vacated in 1904.

39.533188, -119.796434 [blue]

221. Sand Harbor

LUMBER

From 1881–1896, Sand

Harbor played an important role in

the operations of the Sierra Nevada Wood and

Lumber Company that supplied lumber to the

Comstock mines during the late 19th century. A

steamer towed log rafts from the south end of

Lake Tahoe to Sand Harbor. Here the logs were

loaded on narrow-gauge railway cars and taken

two miles north to a sawmill on Mill Creek.

35. Las Vegas Mormon Fort (Nevada's Oldest Building)

ARCHITECTURE-PERSON-RAILROAD-

RANCHING/FARMING In 1855, Mormon missionaries established fields and built an adobe fort. The adobe later became headquarters for the Las Vegas Rancho. Helen J. Stewart purchased and expanded the ranch before selling it in 1902 to the Railroad for the Las Vegas townsite.

36.180732, -115.132676 [blue]

36. Moapa Valley

LDS-OLD SPANISH TRAIL-RANCHING/FARMING The Old Spanish Trail

crosses Moapa Valley. In 1865, Brigham Young sent 75 families to settle the area and grow cotton. They developed the townsite of St. Thomas. The Moapa area remains one of the most agriculturally productive in the state.

36.633278, -114.492248 [blue]

37. Powell of the Colorado

EVENT-PERSON In 1869, Major John Wesley Powell landed at the mouth

of the Virgin River, about twelve miles south of here, thus ending the first expedition through the Grand Canyon of the Colorado River.

36.307583, -114.420423 [blue]

40. Las Vegas (The Meadows)

ARCHITECTURE-EVENT-NATIVE

WASHOE COUNTY

Frémont first journeyed through this canyon. In 1846, the Applegate brothers blazed their trail from Oregon through here to the Humboldt River. By 1849 gold seekers crowded the trail.

152. Gerlach

NATIVE AMERICAN-PERSON-

RAILROAD-TRAIL/ROAD Established

after the Western Pacific Railroad (1905-1909) was constructed, Gerlach lies in country

occupied by Native Americans for thousands of years. John C. Frémont traveled through these Northern Paiute lands when he camped here in 1843. This was also emigrant country; the Noble Road left the Applegate-Lassen Trail at Black Springs, went past this site, and proceeded southwest through Smoke Creek Desert toward Susanville.

40.651621, -119.354357 [blue]

166. Bowers Mansion

ARCHITECTURE-MINING Bowers

Mansion, built in 1864 and restored in 1869, recalls the wealth of the Comstock Bonanza. Lemuel S. "Sandy" & Eilley Orrum Bowers were probably the first millionaires produced by the famous find in Gold Canyon. Misfortune followed fortune and soon all was lost. The property had a succession of owners and from 1903-1946 it was a popular resort under Henry Ritter.

39.284693, -119.840610 [blue]

169. Glendale School (1864-1958)

ARCHITECTURE-PERSON "Oldest

Remaining School Building in Nevada" Archie Bryant built this structure in 1864 and it remains as a testament of his craftsmanship.

It was moved from its original site in 1976 and finally came to rest at this location in 1993.

Perhaps the most notable student that attended here was U.S. Senator Patrick A. McCarran. 39.534573, -119.754847 [on building]

189. Southern Pacific Railroad Yards

EVENT-RAILROAD Soon after 1900,

laborers reworked some 373 miles of the original Central Pacific (now the Southern Pacific) line between Reno and Ogden, Utah. In 1904, the terminal in Wadsworth was moved to this location, which became the town of Sparks. The railroad dismantled a huge forty-stall locomotive roundhouse in 1959. The machine and erecting shops are still standing.

39.534695, -119.752618 [blue]

191. Verdi

LUMBER-RAILROAD-TRAIL/ROAD A

log bridge was built across the Truckee River near where Verdi is now located. Known as O'Neil's Crossing, the site served as a stage stop during the 1860s. Modern Verdi came into being with the construction of the Central Pacific Railroad through Nevada between 1867 and 1869. Verdi was a major mill town and terminal for the shipment of ties and construction timbers. A fire in 1926, plus depletion of timber reserves, resulted in Verdi's decline.

39.515945, -119.993731 [blue]

198. Steamboat Springs

PERSON-RAILROAD-TRAIL/ROAD

After the springs were located in 1860, a hospital and bathhouses were built. In 1871, the Virginia & Truckee Railroad built a

WASHOE COUNTY

81. Grand Army of the

Republic Tree

EVENT-MILITARY This tree was planted in soil from Civil War battlefields and dedicated to the memory of the Grand Army of the Republic by the national commander in chief on June 10, 1913.

39.536392, -119.814745 [blue]

88. Sparks

PERSON-RAILROAD

The Southern Pacific Company moved its shops and headquarters from Wadsworth to this location in 1904. Sparks boasted one of the largest roundhouses in the world during the steam era. The famous cab-in-front locomotive type known as Mallets, were the huge steamers hauling both freight and passengers over the steep grades of the Sierra Nevada between Roseville, California and Sparks.

39.538224, -119.766486 [blue]

94. The Winters Ranch

ARCHITECTURE-PERSON-RANCHING/

FARMING

This large Gothic-style structure, completed around 1864, was the ranch home of Theodore and Maggie Winters and their seven children. Winters had a large dairy operation and raised race horses, work horses, beef cattle, and sheep. He was also active in politics and was elected as a territorial representative in 1862.

39.310528, -119.823611 [blue]

114. Franktown

LUMBER-MINING-RANCHING/FARMING

In 1855, Orson Hyde, probate judge of Carson County, Utah Territory, founded Franktown. The town was surrounded by farms.

It also had a sawmill that furnished timber to the Comstock mines and a sixty-stamp quartz mill that crushed ore. The town declined in importance after the completion of the railroad from Carson City to Virginia City in 1869.

39.271401, -119.840790 [blue]

128. The Great Train Robbery

EVENT-RAILROAD

The West's first train robbery occurred near this site on the night of November 4, 1870. A gang of men concocted an elaborate scheme to rob the Central Pacific Railroad as the train passed through Verdi.

39.517454, -119.988444 [blue]

148. The Two Battles of

Pyramid Lake

MILITARY-NATIVE AMERICAN-

PERSON On May 12, 1860, Northern Paiute (Numu) warriors, fighting to retain their way of life, decisively defeated a volunteer army from Virginia City and nearby settlements. On June 2, 1860, a larger force of volunteers and regular U.S. Army troops engaged Numu warriors in battle. Several hundred warriors, held back forces until their women, children, and elders could escape. Numu war leader, Numaga (young Winnemucca) desired only peace, but he fought back to defend his people.

39.749278, -119.331785 [blue]

149. High Rock Canyon

NATIVE AMERICAN- PERSON-TRAIL/

ROAD Marker removed. This area is important to Native Americans and contains rock shelters, campsites, and petroglyphs (images pecked into the rock surface) that are thousands of years old. In 1843, John C.

CLARK COUNTY

District 1856-1957

LDS-MINING-RANCHING/FARMING Named for cattlemans Joseph Good, Goodsprings mining district got its start in 1856, when Mormons began work at Potosí mine. Mining reached its peak in 1916 when Goodsprings had 800 residents.

35.172087, -114.710797 [blue]

103. Gypsum Cave

NATIVE AMERICAN Marker

removed. The cave contains both

Native American artifacts including stone

points and dart shafts, and giant ground sloth

remains. It was thought Native Americans and

Ice Age Mammals inhabited the cave at the

same time but evidence placed the sloth in the

cave about 8,500 B.C. and the human artifacts

at about 3,000 B.C.

104. The Camel Corps

MILITARY Marker missing. In 1855,

Congress authorized \$30,000.00 for

camels as frontier military beasts of burden

because of their adaptability to desert heat,

drought, and food. The experiment was not

successful.

35.172087, -114.710797

115. Potosí

LDS-MILITARY-MINING Mormon

settlers mined for lead at Potosí

but smelting difficulties forced the remote mine

to be abandoned in 1857. In 1861, the mine

was reopened and a smelter and cabins for

miners were built. During World War I, Potosí

was an important source of zinc.

36.000991, -115.485424 [blue]

AMERICAN-OLD SPANISH TRAIL-PERSON-

RANCHING/FARMING

This marker is located

inside the Las Vegas Springs Preserve. Water

from the Las Vegas Spring fed meadows and

mesquite forests that were the homeland of

Southern Paiutes. The springs were a stopping

point on the Old Spanish Trail. John C. Frémont

camped here in 1844. The waters made a great

location for the Las Vegas Mission and Fort in

1855.

36.170611, -115.189000 [blue]

41. Pueblo Grande De Nevada

ARCHITECTURE-NATIVE AMERICAN

Several hundred ancient pit-houses,

campsites, rockshelters, salt mines and caves

of ancestral Puebloan people make up what is

commonly known as "Lost City." Lake Mead,

created by Hoover Dam, flooded the most

intensively developed portion of Lost City.

36.518001, -114.426315 [blue]

56. Virgin Valley

MORMON TRAIL-OLD SPANISH TRAIL

The valley served as the right-of-

way for many trails. The Virgin River provided

water for settlers in Bunkerville (1877) and

Mesquite (1880).

36.804107, -114.068481 [blue]

86. Tule Springs

NATIVE AMERICAN This site

contains evidence of both early

human (~13,000 years ago) and Ice

Age animals including ground sloth, mammoth,

prehistoric horse, and American camel.

36.322461, -115.269333 [blue]

102. Goodsprings Mining

CLARK COUNTY

116. Searchlight

MINING-PERSON-RAILROAD Marker is unreadable. In 1897, gold and other ore discoveries were made here. In 1907, a Railroad spur connected the town with the then main Santa Fe line from Needles to Mojave. This town is also the birthplace of former U.S. Senator and Senate Majority Leader Harry Reid.
35.468306, -114.922614 [blue]

139. Old Spanish Trail (The Journey of the Dead Man)

PERSON Awaiting install. This is the longest stretch along the Old Spanish Trail without water. It was littered with the skeletons of animals and parts of wagons abandoned along the sandy desert. John C. Frémont crossed this section in 1844.
36.499500, -114.760972

140. The Garcés Expedition

SPANISH EXPLORATION-NATIVE AMERICAN Garcés, a Franciscan missionary priest and explorer, was the first European to enter the present boundaries of Nevada. In 1776, he had reached the Mohave villages located just south of this location on the banks of the Colorado river.
35.106519, -114.650708 [blue]

141. Old Spanish Trail (Armijo's Route)

In 1830, the first pack train to pass from Santa Fe to Los Angeles crossed the Las Vegas Valley along Antonio Armijo's route. Until the end of the Mexican War in 1848, this route was the principal means of transportation between the Mexican territories of New Mexico

16

and California.

36.097652, -114.904643 [blue]

142. Old Spanish Trail (Mountain Springs Pass)

Marker down. This portion of the Old Spanish Trail was discovered in January 1830, by Antonio Armijo. The springs just north of this marker provided excellent water and fed meadows of grass for draft animals.
35.998436, -115.447709

150. Nevada's First State Park

EVENT In 1934, donated land was officially dedicated as Valley of Fire, Nevada's first state park. By 2015, the park had grown fourfold, and is recognized internationally for its outstanding scenic, geologic, and archaeological features.
36.429923, -114.513954 [blue]

168. Arrowhead Trail (1914-1924)

TRAIL/ROAD This trail was promoted as an all-weather route between Los Angeles and Salt Lake City. Local communities along the route promoted its construction and the tourism possibilities of Southern Nevada, including Valley of Fire.
36.426315, -114.463134 [blue]

188. Von Schmidt State Boundary Monument

PERSON-SURVEY This marker commemorates the iron column erected in 1873 at the southernmost tip of the boundary survey line run by Alexey W. Von Schmidt, U.S. astronomer and surveyor.
35.014268, -114.661826 [blue]

WASHOE COUNTY

63. Truckee River East

PERSON-RAILROAD The river's first recorded discovery was by Captain John C. Frémont in 1844. That same year the Truckee River became a route for California emigrants until the advent of the Central Pacific Railroad in 1868-1869. After the Southern Pacific took over the railway in 1899 and relocated much of its Nevada alignment, the old roadbed between Sparks and Wadsworth was deeded to Washoe County. In 1958, after reconstruction, this route became the initial section of interstate 80 across Nevada.
39.550095, -119.573599 [blue]

68. Wadsworth

RAILROAD From 1868 until 1884, the Central Pacific's Truckee Wadsworth Division was located on this site. In 1882, work was started on a new site across the river, and by 1883, a new roundhouse, shop, and other buildings were completed there. After two fires, the railroad planned to move to a new site. In 1904, division facilities moved west to an entirely new location, which became Sparks, Nevada.
39.630926, -119.279170 [blue]

79. Grand Army of the Republic Cemetery

EVENT-MILITARY In 1890, General OM. Mitchel bought 17 lots in the original Hillside Cemetery for the last resting place for comrades-in arms during the Civil War. Restoration began in 1963 by the Daughters of Union Veterans of the Civil War and other interested citizens in the Reno area.

4. Junction House

PERSON-TRAIL/ROAD The earliest emigrants from the east crossed through Truckee Meadows at this point, and by 1853, the intersection was known as Junction House. It was the first permanent settlement in this valley. Governor Sparks owned the property in the late 1890s.
39.902459, -119.565753 [stone & inside]

for a former teamster-turned-sheepman, Elias Olinghouse, who settled at the base of the Pah Rah mountain range. Olinghouse bought several mining claims and erected a small stamp mill in 1903 to process ores. Both electric and telephone service were installed in 1903, and in 1907 the standard-gauge Nevada Railroad arrived.
39.649233 -119.320997

18. Koqyoqe Panunadu -

Pyramid Lake

NATIVE AMERICAN This lake is a remnant of ancient Lake Lahontan which covered over 8,500 square miles in western Nevada during the Ice Age. This marker provides a history of the Numu (Paiute) people and the encroaching settlers.
39.902459 -119.565753 [blue]

29. Chinese in Nevada

LUMBER-MINING-RAILROAD This honors the heroism and hardihood of the thousands of Chinese Americans who played a major role in the history of Nevada. They built railroads, cut timber, and performed countless tasks. Sizable Chinese communities grew up in Virginia City and other towns.
39.534711, -119.753426 [unique]

Squires (1865-1958)
EVENT-PERSON Charles "Pop"
Squires, often referred to as "the Father of Las Vegas," lived at this location, with his wife Delphine, from 1931 until his death in 1958.
36.164606, -115.140944 [on building]

224. Kyle (Kiel) Ranch

PERSON-RAILROAD-RANCHING/
FARMING Established by Conrad

Kiel in 1875, this was one of only two major ranches in the Las Vegas valley throughout the 19th century. The railroad purchased the ranch in 1903. It changed hands a few times before Edwin Losee (1939-58) developed it into a divorce ranch. Currently Kiel Ranch is a 7-acre historic site owned by the City of North Las Vegas.

36.203273, -115.140478 [on fence]

270. The Morelli House

ARCHITECTURE-PERSON The Morelli House is a classic example of Las Vegas mid-century residential architecture. It was built in 1959 by the Sands Hotel orchestra leader Antonio Morelli and his wife Helen.
36.165279, -115.137737 [on building]

197. Arrowhead Trail —

Henderson

OLD SPANISH TRAIL-TRAIL/ROAD Prior to 1850, New Mexican trading caravans en route to Los Angeles used this segment of the Old Spanish Trail. Later it became part of the Arrowhead Trail, an early automobile road (1916-1924) connecting Salt Lake City and Los Angeles.
35.997119, -114.961784 [concrete]

214. Rafael Rivera

MORMON TRAIL-OLD SPANISH TRAIL-PERSON In 1830, pioneer scout, Rafael Rivera, was the first known European American to traverse the Las Vegas Valley. He connected the Las Vegas Springs with the Old Spanish Trail. He ascended the Vegas wash twenty miles east of this marker. John C. Frémont mapped the trail in 1844 which later became known as the Mormon Trail.

EVENT-PONY EXPRESS-TRAIL/ROAD
Carson Valley is the birthplace of Nevada. This sign covers the early settlement of area communities.

38.995981, -119.780024 [concrete]

1862, along this Carson branch of the Emigrant Trail, David and Harriet Walley developed a \$100,000 spa resort. The thermal waters became well known as a cure for "rheumatism and scrofulous affections."
38.981193, -119.833243 [blue]

117. Kingsbury Grade

TRAIL/ROAD In the late 1850s a toll road was constructed to meet the demand for a more direct route from California to the Washoe mines and to shorten the distance between Sacramento and Virginia City by ten miles.

38.965550, -119.839676 [blue]

121. Mottsville

CALIFORNIA EMIGRANT TRAIL-CEMETERY-EVENT-PERSON
Mottsville, was settled along the Emigrant Trail by Hiram Mott and his son Israel in 1851. Their homestead was the scene of an impressive number of firsts in Carson County, Utah Territory including the first school and the first cemetery that marks the site of Mottsville today.

38.931096, -119.840046 [blue]

118. Luther Canyon (Fay Canyon)

CALIFORNIA EMIGRANT TRAIL-LUMBER-PERSON Luther Canyon, west of this site, takes its name from Ira M. Luther, a Nevada Territorial Legislature delegate, who from 1858-1865 had a sawmill there. The house behind the marker was his home. John and Lute Olds, owners of the next ranch south, operated a station along the Emigrant Trail for a number of years.

38.870489, -119.809402 [blue]

122. Sheridan

ARCHITECTURE-PERSON-RANCHING/FARMING In 1861, a blacksmith shop, a store, two saloons and a boarding house comprised the village of Sheridan. The former boarding house is all that remains and it has been converted into the dwelling seen across the road.

38.901252, -119.825849 [blue]

120. Walley's Hot Springs

awaiting installation. The remains of

Cradlebaugh Bridge, built in 1861, by William Cradlebaugh, stand ¼ mile west of here. This bridge shortened the distance from Carson City to Aurora in the then-booming Esmeralda Mining District.

39.046729, -119.780249

124. Boyd Toll Road

MINING-TELEGRAPH-TRAIL/ROAD

Boyd's toll road is still visible to the northwest and southeast of this marker. It was constructed in 1861 to provide a road to join Genoa to the Cradlebaugh toll road, the trunkline to the mining district of Esmeralda. In 1863, a telegraph line from Placerville through Genoa was strung along it.

38.987612, -119.779225 [blue]

125. Twelve Mile House

ARCHITECTURE-MINING-PERSON-TRAIL/ROAD

Marker in production. Built in 1859, this was an important stop on the road to the Esmeralda mining camp of Aurora. Mile houses were critical places for rest and supplies along early western road systems before railroads.

38.905804, -119.706766 [blue]

126. Double Springs

MINING-RANCHING/FARMING-TRAIL/ROAD

Double Springs was a station on the wagon road through the south end of the Pine Nut Mountains. The road provided access between Carson and Walker valleys, both ranching and dairy regions. The site of the Eagle Mining District post office is about four miles north along the highway.

38.793525, -119.599536 [blue]

129. Gardnerville

BASQUE-DUTCH-RANCHING/FARMING

Early Gardnerville served the farming community and teamsters who hauled local produce to booming Bodie. After 1879, Gardnerville became the center for 1,870 Danish immigrants, who met in Valhalla Hall, one block south. Starting in 1898, Spanish and French Basque shepherds tended thousands of sheep in Carson Valley.

38.940808, -119.748830 [blue]

130. Minden

RAILROAD-RANCHING/FARMING

The town of Minden, was named for a town in Germany, where the founder of H.F. Dangberg Land and Livestock Company, was born. The company established Minden in 1905 to provide terminal facilities for the Virginia and Truckee Railway. The passenger and freight depot was situated at this point.

38.952691, -119.761831 [blue]

131. Dresslerville

NATIVE AMERICAN-PERSON-TRAIL/ROAD

In 1917, State Senator William F. Dressler gave this 40-acre tract to the Washoe Indians, then living on ranches in Carson Valley. After a school was opened in 1924, it became a nucleus of settlement.

38.905171, -119.706420 [blue]

207. Carson Valley

CALIFORNIA EMIGRANT TRAIL-LDS-MINING-RANCHING/FARMING

This valley was well suited for ranchers and agriculturalists to prosper. The river provided an influx of California bound travelers in need

STOREY COUNTY/VIRGINIA CITY

Meadows. It was replaced by the present, New Deal-era highway in 1936.
39.372601, -119.667607 [blue]

228. The Great Fire of 1875
EVENT The origins of the fire lie within fifty feet of this marker.

October 26, 1875, a coal oil lamp was knocked over in a nearby boarding house and burst into flames. Strong winds spread the blaze and thirty-three blocks of structures were leveled.
39.310530, -119.650957 [concrete]

236. Piper's Opera House
ARCHITECTURE This building was erected by John Piper in 1885.

Piper's Opera House, with its original scenery, raked stage, and elegant proscenium boxes,

is a remarkable survivor of a colorful era in American theatrical history.
39.310991, -119.650105 [on building]

266. African Americans and the Boston Saloon
AFRICAN AMERICAN HISTORY-EVENT-

MINING-PERSON Between 1866 and 1875, Free-born William A.G. Brown operated the Boston Saloon, serving Virginia City's African Americans. Shortly after Brown sold his business, the great fire of 1875 swept through town and destroyed the building. The site of the Boston Saloon is located uphill and to the left of this location at the corner of Union and D Streets now occupied by the Bucket of Blood Saloon parking lot.

39.310567, -119.649497 [on building]

of provisions. The nearby Comstock Lode (1858) boom and development of Virginia City increased demand for local hay, meat, and other goods. Demand continued with the mining in Bodie, Tonopah, and Goldfield.
38.974261, -119.877126 [blue]

219. Glenbrook
LUMBER-MINING In 1873,

Glenbrook was home to the Carson & Tahoe Lumber & Fluming Company, the largest Comstock wood and lumber combine. Consolidation of V-flume systems in and near Clear Creek Canyon by 1872 made it possible to float lumber and other material from Spooner's Summit to Carson City, eliminating the need for wagon hauling over Lake Bigler Toll Road (King's Canyon Road).
39.081489, -119.942589 [blue]

225. Spooner Area (Logging and Lumbering Period: 1868-1895)
LUMBER-MINING-PERSON This area

bears the name of Michele E. Spooner, a French Canadian entrepreneur, who, along with others,

was instrumental in establishing the wood and lumber industry which supplied the needs of the Comstock mines and mills.
39.106219, -119.918022 [blue]

226. De Ek Wadapush - Cave Rock

NATIVE AMERICAN-TRAIL/ROAD A sacred place to the Washoe Tribe of Nevada and California, cave rock is as important now as it has been for thousands of years. Named for a cave, a remnant of which can be seen above the waterline. It also served as a landmark on the Lake Bigler Toll Road and was tunneled for the highway in 1931 and 1957.
39.044977, -119.948432 [stone]

261. Spooner Summit

TRAIL/ROAD From early toll roads linking California to the new towns east of the Sierra Nevada to today's two lane segment of US 50, Spooner Summit's history is discussed on this marker.

DONNER-TRAIL/ROAD Across the

Humboldt Valley southward from this point a deeply incised canyon opens into a valley. Through that canyon ran the route called the Hastings Cutoff. It was first traversed in 1841 by the earliest organized California emigrant group. In 1846, The ill-fated Reed Donner Party traveled through here.

40.766087, -115.919748 [stone]

45. Humboldt Wells

CALIFORNIA EMIGRANT TRAIL-

RAILROAD These springs, seen as

marshy spots and small ponds of water in the meadows, are Humboldt Wells, a historic oasis on the California Emigrant Trail. In 1869, the Central Pacific Railroad established a station named Humboldt Wells later named just Wells.

41.117892, -114.978171 [blue]

46. Pilot Peak

CALIFORNIA EMIGRANT TRAIL-

DONNER-PERSON The high,

symmetrically shaped mountain seen rising to the north is Pilot Peak, named by John C. Frémont. The mountain was a symbol of hope and relief to the Reed-Donner Party and all other wagon train pioneers who traveled across the Great Salt Lake Desert on the California Emigrant Trail.

47. Fort Halleck Site 1867-1886

CALIFORNIA EMIGRANT TRAIL-NATIVE AMERICAN-RAILROAD-TRAIL/ROAD Marker missing. In 1867, Fort Halleck was established twelve miles to the south near Soldier Creek. The Army intended the Fort to protect the California Emigrant Trail, the Overland Mail Route, and construction work on the Central Pacific Railroad during conflicts with Goshute and Western Shoshone in that decade.

40.956274, -115.465769

48. Tuscarora

CHINESE-MINING-RANCHING/

FARMING Mines that made up the

Tuscarora Mining District experienced their boom between 1872 and 1884. The population reached over 3,000, including several hundred Chinese. Tuscarora residents shifted their work between mining gold and silver and ranching in Independence Valley.

41.281007, -116.113917 [blue]

50. Carlin Canyon

CHINESE-PERSON-TRAPPING In

1828, Peter Skene Ogden and his trapping brigade (Hudson's Bay Company) were the first European Americans to enter here. In 1845, John C. Frémont dispatched a group down

the Humboldt including this difficult canyon. The Central Pacific's Chinese track gangs constructed the transcontinental railroad (now Union Pacific) through here in 1868. 40.727940, -116.019831 [blue]

69. Jarbidge
MINING-NATIVE AMERICAN
Shoshone-speaking people have lived in this area for generations. The name Jarbidge comes from a Shoshone word meaning "a bad or evil spirit". Dave Bourne discovered gold in this isolated area in 1909. 41.871744, -115.431220 [blue]

73. Unknown Soldiers
CEMETERY-MILITARY Buried here are ten unidentified soldiers, victims of the influenza epidemic of 1918. They were unloaded from the Southern Pacific Railroad to a makeshift hospital at the town's hotel. In 1975, some graves were able to be marked. 41.261992, -114.193398 [blue]

106. Elko
RAILROAD-RANCHING/FARMING The Central Pacific Railroad planned out Elko in 1868. The railroad was busy with stage lines carrying freight and passengers to area mines. By the early 1870s, Elko became the center for northeastern Nevada's range livestock empire. 40.841389, -115.753441 [blue]

107. Elko Airport
EVENT-PERSON In 1926, Varney Air Lines pilot, Leon Guddeback carried one bag of mail and landed his

tiny Curtiss Swallow biplane at Elko, Nevada, completing the first scheduled Air Mail run in the United States. Varney sold to Boeing, which merged with United Airlines in 1931. 40.828743, -115.780109 [blue]

108. Ruby Valley Pony Express Station
This small building was originally located 60 miles to the south, where it served the Pony Express from April 1860 to 1861. It was moved to this location in 1960. 40.841851, -115.752835 [blue small]

109. Lamoille Valley
CALIFORNIA EMIGRANT TRAIL-RANCHING/FARMING In order to rest their livestock in Lamoille Valley, many emigrants skirted the east Humboldt Range and the Ruby Mountains along a Shoshone Indian path before returning to the Humboldt River. Lamoille Valley was first settled in 1865. The original buildings, and the most recent 20-bedroom Lamoille Hotel, creamery, flour mill, and dance hall are gone. 40.727632, -115.479733 [blue]

112. Carlin
CALIFORNIA EMIGRANT TRAIL-MINING-RAILROAD A favorite stopping place for wagon trains along the California Emigrant Trail, Carlin, the oldest town in Elko County, was established as a railroad division point in 1868 by the Central Pacific Railroad. Carlin competed with Elko, Palisade, and Winnemucca for the staging and freighting business of the many mining camps north and south of the railroad. 40.710312, -116.118394 [blue]

CE TRAIL (2) MARK TWAIN (1) RAILROAD (2)

17. Pershing County
CALIFORNIA EMIGRANT TRAIL-MINING-RAILROAD Travelers on their way to California in the 1840s and 1850s named this rich valley Big Meadows. Mining began here in the 1850s. The coming of the railroad in 1869 brought new growth to the area. Pershing County, established in 1919, was previously part of Humboldt County. 40.180457, -118.476651 [stone]

145. Unionville
EVENT-MINING Southern (Confederate) sympathizers settled in Buena Vista Canyon in 1861 after the discovery of silver ore. Appropriately called Dixie, their camp's name changed to Unionville in 1862, when the will of the neutral and northern factions of the population prevailed. 40.449753, -118.071769 [blue]

23. Humboldt House
CALIFORNIA EMIGRANT TRAIL-MINING-RAILROAD Humboldt House, also known as Humboldt Station, was a departure point for Humboldt City, Prince Royal, and the mines in that vicinity. As the Central Pacific Railroad advanced from eastern California, it reached Humboldt House in September 1868. Between 1841 and 1857, 165,000 Americans traveled the California Emigrant Trail past here. 40.598778, -118.251639 [blue]

231. Star City
MINING Marker is damaged. Located in the Star Mining District some seven miles west of here, Star City was established in 1861 when rich silver ore was discovered in the area. The town boomed in both 1864 and 1865. All that remains today are crumbling foundations, rusted mill equipment, and memories. 40.553250, -118.051641 [blue]

49. Applegate-Lassen Emigrant Trail Cutoff
TRAIL/ROAD From 1846-1848, Oregon emigrants successfully traveled the Applegate Trail. In 1848, Peter Lassen, guided a party of ten to twelve wagons bound for California from here to Goose Lake where he turned southward over terrain that was barely passable. It became known as the "Death Route." 40.652280, -118.165702 [blue]

232. Reunion in Unionville
EVENT-MARK TWAIN Across the road and down about 300 feet was the original Unionville School. Built in 1862, this was the first public structure in Humboldt County. It served the community until its demolition in 1871. Exactly 109 years later, members of the Honorable Order of E Clampus Vitus gathered here to hold a reunion in commemoration of this propitious event. To the rear of this marker is the site where Samuel Clemens allegedly lived briefly before going to Virginia City in 1862 and taking the name Mark Twain. 40.448044, -118.146047 [blue]

151. Duck Valley Indian Reservation
NATIVE AMERICAN The Shoshone and Paiute people have occupied northern Nevada, southeastern Oregon, and southern Idaho since time immemorial. In the mid-1800s European emigrants changed the Shoshone and Paiute homelands forever. The Duck Valley Indian Reservation was first established in 1877 and expanded twice: once in 1886 and a second time in 1910. Between 1880 and the early 1900s, other small bands of Paiutes and Shoshone made their way to the reservation, some by choice and others by force. In 1934, the different bands that came to the reservation from other areas became federally recognized as the Shoshone-Paiute Tribes of the Duck Valley Indian Reservation.

41.997450, -116.132001 [blue]

153. Jarbidge Community Hall
ARCHITECTURE In 1910, citizens built this pioneer-type community hall with a “floating” maple floor. Support from the Nevada Commission for Cultural Affairs and the community funded the restoration of the building.

41.875519, -115.430682 [on building]

229. Oil From Shale
EVENT Directly south of this point and across the valley floor are the remains of a short-lived oil extraction plant from the early twenties. Out of several tries at extracting oil from shale, this was the only successful operation in Nevada.

40.825540, -115.779914 [blue]

244. Dinner Station
ARCHITECTURE-TRAIL/ROAD Marker removed. Dinner Station was established in the early 1870s as a meal stop for the Tuscarora and Mountain City Stage Lines. After a fire in the 1880s, a two-story stone house, outbuildings, and a corral were built. Early in the twentieth century, it became one of the most popular county inns of the time.

41.099749, -115.866354

251. Diamondfield Jack Davis
MINING-PERSON-RANCHING/FARMING This historical marker commemorates the lasting notoriety of flamboyant western gunman Jackson Lee Davis (1870-1949), who was better known by the colorful name, “Diamondfield Jack”. In the late 1890s, Davis was a gunman for cattle interests. Later he became a successful mine operator and founder of several mining camps.

ESMERALDA COUNTY MAP

138. Belmont
MINING-NATIVE AMERICAN A spring that flows year-round made this area an attractive gathering site for Shoshone Indians and miners. In 1865, silver ore was discovered and Belmont boomed. It was the Nye County seat from 1867-1905. A courthouse survives from this period. By 1890, Belmont's population dwindled as most residents left for new discoveries in nearby mining towns.
38.596333, -116.875722 [concrete]

159. Lone
MINING In 1863, European Americans discovered silver here. A year later, Lone City was the first county seat of the newly created Nye County. Over 600 people worked in town until a promising ore body in Belmont attracted most of the miners and later captured the county seat in 1867.
38.949536, -117.585166 [blue]

165. Nevada Test Site
EVENT-MILITARY-NATIVE AMERICAN The nation's principal nuclear explosives testing laboratory was located within this 1,350 square mile, geologically complex area. The first nuclear test took place in 1951. Archeological studies of the testing area have revealed continuous occupation of the area over the past 9,500 years with Southern Paiutes being the most recent Native American inhabitants.
36.592657, -116.028351 [blue]

171. Chief Tecopa: Peacemaker of the Paiutes
NATIVE AMERICAN Chief Tecopa was a young man when the first European

Americans came to Southern Nevada. He is honored for the peaceful relations he maintained between the Southern Paiutes and the settlers who came to live among them.
36.209098, -115.989518 [blue]

172. Tybo
CHINESE-MINING Eight miles northwest of this point lies what was formerly one of the leading lead-producing districts in the nation. Ore was first discovered in 1866. It's mainly European residents had internal conflicts. Later, the different groups banded together to drive away a company of Chinese woodcutters.
38.310030, -116.275635 [blue]

173. Beatty
MINING-RAILROAD Beatty was the center of three short-lived, so-called "gold" railroads that were spawned by early 1900s strikes in Tonopah, Goldfield and Rhyolite. The town was referred to as the "Chicago of the West".
36.905963, -116.755789 [blue]

217. Tate's Stage Station
TRAIL/ROAD Thomas Tate subcontracted mail routes in central Nevada for over thirty years. In 1886, he and his wife established a station due east as an overnight stop between the county seats of Austin and Belmont.

15. Tonopah

 MINING-RAILROAD Tonopah became the richest silver producer in the nation and replaced Belmont as the Nye County seat in 1905. The mines spawned a railroad, several huge mills, and a bustling population of approximately 10,000. The mines faltered in the 1920s.

38.066994, -117.229351 [stone]

42. Big Smokey Valley

 MINING-NATIVE AMERICAN-PERSON-PONY EXPRESS-TELEGRAPH-TRAIL/ROAD This valley and its bordering Toiyabe and Toquima ranges are Shoshone territory. European American explorers came into the area starting with Jedediah Smith in 1827.

Other figures include John C. Frémont, and Kit Carson. Between 1859-1869, the valley was crossed by Chorpennig's Jackass Mail, the Pony Express, the Overland Telegraph, and the Concord Coaches of the Overland Mail and Stage Company. Silver strikes at Austin (1862-1863) initiated the valley's first mining boom.

Numerous bustling mining camps sprang up. In 1900, the Tonopah silver strike reinvigorated mining in the valley.

38.783165, -117.175405 [blue]

58. Old Boundary

 EVENT Starting in 1850, the 37th degree north latitude, marked at this point, was the dividing line between the

territories of Utah and New Mexico. In 1861 it became the southern boundary for the Nevada Territory.

37.002016, -116.725944 [blue]

64. Ophir

 MINING Up in the canyon above this marker are massive stone foundations and other mining town relics.

In 1864, the Murphy Mine opened. By the 1890s, the town was deserted but some mining activity at the Murphy Mine continued sporadically into the 20th century.

38.938781, -117.197451 [blue]

96. Round Mountain

 MINING Round Mountain got its start as an early 1900s gold mine. It was productive for more than 60 years. Many small, high-grade veins were easily mined with hand tools while larger, lower-grade veins provided ore for milling plants.

38.726551, -117.114944 [blue]

97. Manhattan

 MINING-TELEGRAPH The Manhattan Mining District, northeast of here, was first organized in 1867. In 1905, gold was discovered and a typical boom followed. Soon the camp had a post office, telegraph, utilities, and businesses. After an earthquake in 1906, mining switched from big investors to lessees.

14. Goldfield

 MINING-RAILROAD Gold ore was discovered here in 1902 by two Nevada-born prospectors, Harry Stimler and Billy Marsh. Goldfield boomed from 1904 to 1918. The city had a railroad that connected to Las Vegas and a peak population of 20,000, making it Nevada's largest community at the time.

37.707608, -117.233431 [stone]

20. Columbus

 MINING Marker missing. The remnants of Columbus are located on the edge of the salt marsh, five miles to the southwest. The town was initially settled in 1865, when a quartz mill was erected at the site. In 1871, William Troop discovered borax in the locality. Four borax companies worked the deposits until around 1881.

38.149407, -117.947939

101. Millers

 MINING-RAILROAD This town was originally established in 1904 as a stage station and watering stop on the Tonopah and Goldfield Railroad. The Tonopah Mining Company had its 100-stamp cyanide mill built here in 1906. The town was abandoned in 1947 when the railroad went out of business.

38.140509, -117.454420 [blue]

133. Fish Lake Valley

 MINING-PERSON-RANCHING/FARMING

The valley was settled when the Palmetto Silver Mining District was discovered in 1866. In the 1870's companies mined for borax. Several local ranches supplied food to the freight industry and mining communities. This marker commemorates W.O. Harrell, known as "Harrell, the irrepressible," who lived here in the 1870's.

37.693977, -118.090260 [blue]

155. Silver Peak

 MINING Silver Peak is one of the oldest mining areas in Nevada. Lawlessness prevailed during the late 1860s. In 1906, Silver Peak was, at times, one of the leading camps in Nevada, but by 1917 it was abandoned. The town burned in 1948.

38.018306, -117.775778 [blue]

156. Gold Point

 MINING In 1908, miners discovered a form of silver chloride known as hornsilver. Later, a town of over 225 wooden frame buildings, tents, and shacks appeared. The camp assumed the name Gold Point after 1930 when more gold was being mined than silver.

37.437505, -117.284975 [blue]

157. Lida

 MINING-NATIVE AMERICAN Known as a gathering point for Shoshone and Northern Paiute Indians, Lida Valley was the site of early prospecting in the 1860s. A town was built in 1872. Mining efforts were off and

ESMERALDA

on through the years and a small community existed here until World War I.
37.455434, -117.499636 [blue]

158. Palmetto

MINING A local 12-stamp mill processed silver ore here in the late 1800s, but the town died for lack of profitable material. New prospecting in 1903 caused Palmetto to grow to a town of 200 tents. By 1906, most miners were gone and lease mining has been minimal ever since.
37.444168, -117.694873 [blue]

174. Blair

MINING-RAILROAD The remnants of stone buildings and mill foundations are the only survivors of the once thriving, but short-lived, mining town. The Pittsburgh-Silver Peak Gold Mining Company built a 100-stamp mill here in 1907 as well as a railroad to the Tonopah & Goldfield main line.
37.787702, -117.636535 [blue]

242. Southern Nevada Telephone – Telegraph Company Building

ARCHITECTURE-TELEGRAPH This building was the communications center of Goldfield from 1908 to 1963. This building was one of the few spared by a fire that destroyed 53 blocks of the downtown area in 1923.

11. Eureka

MINING-RAILROAD "Eureka!" a

miner is said to have exclaimed in

1864 when he discovered rich lead-silver ore here. During the 1880s Eureka had 16 smelters, over 100 saloons, a population of 10,000, and a railroad — the colorful Eureka and Palisade — that connected with the transcontinental line to the north.

39.499881, -115.958485 [stone]

82. Diamond Valley

MINING-NATIVE AMERICAN-PERSON-

PONY EXPRESS-RANCHING/FARMING-

TELEGRAPH For generations Shoshone and Paiute Indians had gathered nature's bounty here. John C. Frémont mapped the area in 1845. A route, through the north end of the valley, became the Pony Express route from 1860-1861. The Overland Telegraph replaced the Pony Express and also crossed the valley. In the 1860s, area led and silver mines were supported by limited ranching and serviced by toll roads all across the valley. In 1957, a large underground lake was tapped to supply water for irrigation.

39.755569, -116.083893 [blue]

65. Palisade

RAILROAD Palisade was surveyed

and laid out by the Central

Pacific Railroad in 1870. At this time, it was a departure point on the line for wagon, freight, and stage lines to Mineral Hill, Eureka, and Hamilton. The Eureka and Palisade Railroad was completed in 1875 and until 1930, the town was the principal transfer and shipping point on the Central Pacific.

40.601131, -116.178075 [blue]

80. Eureka Courthouse

ARCHITECTURE Designed by George

Costerisa and built in 1879-80 from

locally-fired brick and sandstone quarried nearby, the Italianate style courthouse remains a fine example of boomtown Victorian opulence. This relic reflects the glory days from 1864 to 1890 when Eureka was the first important lead-silver district in the United States.

39.512349, -115.961003 [on building]

187. The Cattle Industry

RAILROAD-RANCHING/FARMING The

numerous valleys of Nevada have supported a vigorous cattle industry since the 1850s. The completion of the transcontinental railroad in 1869 was the catalyst that created a prosperous industry.

16. Mineral County

MINING-PERSON Jedediah Smith

passed near here in 1828 during

his remarkable trip across the Great Basin. Peter Skene Ogden traveled through the region in 1829. John C. Frémont arrived in 1845 with his guide, Joseph Walker, for whom the lake is named. Formerly part of Esmeralda County, Mineral County was formed in 1911. The county includes several well-known mining towns as well as other smaller mining camps.

38.690385, -118.770673 [stone]

154. Belleville

MINING-RAILROAD Founded in 1874,

Belleville flourished by milling

ore from Northern Belle Mine at Candelaria. The mill, located just east of here, made its first bullion-bar shipment (worth \$9,200) in 1875. Starting in 1881, Belleville was also the terminus and work camp of the Carson and Colorado Railroad.

38.222908, -118.180332 [blue]

183. Walker River Reservation

NATIVE AMERICAN Although the

area around Walker Lake in the Utah

Territory was set aside for "Indian purposes" in 1859, it was not until 15 years later that President Grant signed the executive order formally establishing the Walker River Indian Reservation, on March 19, 1874.

38.952343, -118.810608 [blue]

60. Hawthorne

LUMBER-MILITARY-MINING-PERSON-

RAILROAD In 1880, the Hawthorne

townsite was a division and distribution point for the Carson and Colorado Railroad. The town was named after William A.

Hawthorne, a Nevada pioneer, lumberman, road superintendent, and Justice of the Peace. In 1926, the Navy selected Hawthorne for a new ammunition depot.

38.532510, -118.625006 [blue]

92. Candelaria and Metallic City

MINING The ghost towns of

Candelaria and Metallic City are seven miles west of here. Candelaria was located in the mid-1860s and in 20 years it was the largest town in the immediate area. Metallic City lies ¾ mile to the south of Candelaria.

38.208077, -118.001744 [blue]

237. Carson and Colorado R.R.

Freight Depot

RAILROAD This is the first railroad

building to be constructed in Hawthorne. It is the remnant of the narrow-gauge Carson and Colorado Railroad built south from Mound House, near Virginia City in 1881. In later years, this building served as a general store, a bar and restaurant with a bingo parlor, and a banquet hall, until acquired by the Hawthorne Elks Lodge in 1946.

38.524330, -118.623862 [on building]

222. Tannehill Cabin
ARCHITECTURE-MINING In 1864, the Tannehill brothers, who owned mining interests, built one of Eureka's first houses. Over time, the cabin has had a number of owners, including the firm of Nathan & Harrison, one of the area's first mercantile establishments in the late 1860s.
39.503149, -115.959516 [blue]

254. The Eureka Mining District Producing Ore Since 1864
MINING In 1864, a group of prospectors from Austin, Nevada discovered rock containing a silver-lead mixture on Prospect Peak. From 1870-1890, the Eureka Mining District was one of the top mineral producing districts in the state. Many hills around Eureka still contain rock piles, open shafts, and abandoned mining equipment. Modern day gold mining continues in the area today.

223. Devil's Gate

MINING-NATIVE AMERICAN Devil's Gate marks the boundary line

between Storey and Lyon Counties. From 1850-1860 Gold Canyon was busy with placer mining. During the brief Paiute War of 1860, residents of Silver City built a stone battlement on the eastern summit and a wooden cannon for protection. Later on, miners traveled through here on their way to the gold and silver mines of the Comstock Lode.

39.266623, -119.643199 [concrete]

233. Dayton Cemetery

MINING-PERSON Founded in 1851, this is one of the oldest constantly

maintained cemeteries in Nevada. The trail to the California Mother Lode passed directly in front and the wagon tracks can still be seen with careful observation. James Finney ("Old Virginny") after whom Virginia City is named, is buried here. Many people buried here are Italian Americans, as this ethnic group dominated much of Dayton's early history.

39.233421, -119.597071 [blue]

255. Wilson Canyon

MINING-NATIVE AMERICAN (GHOST DANCE)-PERSON-RANCHING/FARMING

Wilson Canyon and the Wilson Mining District were named for brothers David and "Uncle Billy" Wilson. The family settled in the area in 1863 mining gold discovered in Pine Grove and ranching in Mason Valley. A Northern Paiute named Wovoka was raised with the Wilson boys and took the name Jack Wilson. Wovoka started the Ghost Dance movement in 1890,

which swept into the Great Plains with potent political force.

38.809668, -119.220149 [stone]

257. Nevada's First Gold

Discovery

EVENT-MINING This monument commemorates the 150th anniversary of the discovery of gold and the thousands of pioneers who passed near this site. The continuous occupation of Gold Canyon's mouth makes this site Nevada's first non-Native American settlement.

39.235897, -119.591806 [stone]

262. Dayton School House —

1865

ARCHITECTURE In 1865, Lyon County built a stone school building for the residents of Dayton, then the county seat. It is the second oldest schoolhouse in Nevada and is the oldest such structure to remain in its original location.

39.237918, -119.592480 [on building]

264. Silver City School House

ARCHITECTURE The growing town of Silver City built a schoolhouse

at this site in 1867-1868. The school closed in 1958. The building then served as a community center and volunteer fire department. Fire destroyed the original building in 2004. The new building closely resembles the old schoolhouse in size and architectural style. Materials from the original building are incorporated into the new structure.

39.264552, -119.639577 [stone]

finished in 1864. In 1909, the building burned. Utilizing the ruins, a high school was built and opened in 1918. The school closed in 1959 and the building became an elementary school, then a junior high school, and is now the Dayton Valley Community Center.

39.238094, -119.591121 [blue small]

163. Dayton Chinatown
CHINESE-EVENT-MINING Dayton is the site of Nevada's first Chinatown.

The Dayton Chinese were hired in 1857 to dig the four-mile Rose Ditch from the mouth of the Carson River west of town to the miners working the placers at the entrance to Gold Canyon. The community continued to be an important hub for Chinese Americans in Nevada into the 1880s.

39.236240, -119.589305 [blue/stone]

177. Desert Well Station (Overland Mail and Stage Station)
EVENT-MARK TWAIN-TRAIL/ROAD Located approximately one mile south are the remains of a typical stage station of the period 1843 to 1869. The station achieved a measure of fame when Mark Twain wrote of his experience there in Roughing It. The original site featured two wells, an inn, and corrals. One of the wells was used exclusively by camels brought to the Nevada desert to haul salt to the mines on the Comstock.

39.364120, -119.365569 [blue]

186. Union Hotel & Post Office
ARCHITECTURE-PONY EXPRESS-TRAIL/ROAD Private property not open to the public. The free standing rock wall is the

192. Buckland's Station

ARCHITECTURE-MILITARY-NATIVE AMERICAN-PERSON-PONY EXPRESS-

TRAIL/ROAD Samuel S. Buckland settled here in 1859 and began a ranching operation, established a station for the Overland Stage Company, and operated a tent hotel. The station served as the assembly point for volunteers for the Pyramid Lake War, a station on the Pony Express, and later on, a store. He also constructed the large two-story house, presently located here.

39.294228, -119.251578 [blue]

199. Camels in Dayton

MILITARY-MINING Camels were imported into the United States and tested for military purposes in the mid-1850's. The experiment failed and the camels were auctioned. Some were brought here to haul wood and salt to the mines and mills of the Comstock. They were corralled behind this stone hay barn, known as the Leslie Hay Barn.

143. Sarah Winnemucca

Hopkins

MILITARY-NATIVE AMERICAN-PERSON Marker in production. Sarah Winnemucca, whose Paiute name was Thocmontony (Shell-flower), was the daughter of Chief Winnemucca. Because of her importance to the nation's history, Sarah Winnemucca Hopkins was

honored in 2005 with a statue in the National Statuary Hall of the U.S. Capitol. This marker discusses some of her accomplishments.

144. Fort McDermitt
MILITARY-NATIVE AMERICAN-TRAIL/ROAD Established in 1865 to protect the Virginia City-Quinn River Valley-Oregon road, Fort McDermitt consisted of several

adobe, stone, and frame buildings. Its troops participated in the Modoc War and in conflicts with the Bannock and Shoshone Tribes. It was the last of the Nevada army posts in service when it converted into an American Indian reservation school in 1889.
41.942901, -117.707561 [blue]

146. Fort McDermitt Indian Reservation
MILITARY-MINING-NATIVE AMERICAN In the mid-1860s many poorly treated Paiutes

from both Oregon and the Pyramid Lake Indian Reservations joined and settled around Fort McDermitt. At times they aided the local military and many worked at nearby mercury mines.

41.942919, -117.707581 [blue]

162. Camp McGarry
MILITARY-NATIVE AMERICAN From 1865-1868, the U. S. Army operated Camp McGarry twelve miles

northeast of here at Summit Springs near Summit Lake. The troops protected the Idaho-California mail, stage roads, and the nearby trails in Nevada and Oregon.

41.394447, -119.166116 [blue]

164. Button Point

PERSON-RANCHING/FARMING In 1873, Frank Button and his uncle

Isaac Button drove cattle to the area to begin ranching operations in the fertile valleys of northern and eastern Humboldt County. They had 4,000 square miles of ranchland.

7. Dayton

CE TRAIL-MINING Dayton was first known as a stopping place on the

river for California-bound pioneers. In 1849, gold was found at the mouth of Gold Canyon and prospecting began. Ten years later, miners discovered ore deposits at Gold Hill and Virginia City.

39.236240, -119.589305 [blue/stone]

61. Mound House

MINING-RAILROAD Located one-half mile north of this point, Mound

House started off as a station and siding on the Virginia and Truckee Railroad in 1871. In 1880, the Carson and Colorado rail was built from here to the mining camps of western Nevada and eastern California. In 1900, the Southern Pacific Railroad purchased the two railroads.

From 1900 to 1920, immediately northwest of Mound House, extensive gypsum mining and milling operations were carried on.

74. Wellington

RANCHING/FARMING-TRAIL/ROAD

Following the mining boom in the Aurora District in 1860, a bridge was built across the West Walker River and a stage station/trading center was established. In 1863, Daniel Wellington bought interests and the place became known as "Wellington's

Station

38.751930, -119.370536 [blue]

85. Sutro

MINING-PERSON Sutro was a town, a drainage tunnel, and a man.

Miners completed the main tunnel in 1878 and then extended lateral excavations, providing drainage, ventilation and access to many Comstock mines.

39.272266, -119.579585 [blue]

113. Wabuska

MINING-RAILROAD-TRAIL/ROAD

Wabuska was established in the early 1870s as a station on the road from Wadsworth, on the Central Pacific, to the mining camps of Aurora, Bodie, Candalaria, Columbus, and Bellville. In 1881, the town served as a distribution center on the narrow gauge Carson and Colorado Railroad. When copper was discovered in Mason Valley, the town became the northern terminus of the new Nevada Copper Belt Railroad, built 1909-1911.

8. Austin

MINING Austin sprang into being after William Talcott discovered silver at this spot in 1862. Just a year later, Austin became the Lander County seat and was home to thousands of residents.
39.498340, -117.079546 [stone]

ROAD The stone foundations of Jacobsville are one-half mile north of here. The town was established in 1859 as an Overland Stage and Mail Station and became a Pony Express stop in 1860. In the early 1860s, it boasted of having the first telegraph relay station and was the first county seat of Lander County.
39.492893, -117.183836 [blue]

59. Stokes Castle

ARCHITECTURE-PERSON In 1879, Anson Phelps Stokes, mine developer, railroad magnate, and member of a prominent eastern family, built Stokes Castle as a summer home for his sons. The family only used it for two months.
39.493476, -117.079916 [blue]

67. Austin Churches
ARCHITECTURE-PERSON St. Georges Episcopal Church, to the east, was consecrated in 1878. St. Augustine's Catholic Church, to the west, was built in 1866. The Methodist Church, to the north, was built in 1866. Emma Wixom, also known as the famous opera singer Emma Nevada, attended Sunday school there.

160. Panaca Spring
EVENT-LDS-MINING-RANCHING/
FARMING This spring produces a large constant flow of warm water. Mormons built the first permanent settlement in southern Nevada at Panaca in 1864. The same year the Meadow Valley Mining District, including the Pioche area, was organized with its center at Panaca Spring.
37.795446, -114.385129 [blue]

182. Panaca Ward Chapel
ARCHITECTURE-LDS One of the oldest buildings in Lincoln County, the Panaca Ward Chapel was constructed of adobe from the swamps west of town in 1867-1868. The building was also used as a school and recreation hall.
37.790921, -114.387486 [on building]

203. Bullionville
CEMETERY-MINING Bullionville was established in 1870 when the Pioche mills were located here. By 1875, the town had a population of 500. During the same year a water works was constructed at Pioche, which led to the relocation of the mills. All that remains is the cemetery at the top of the hill.
37.806563, -114.406246 [blue]

204. Jackrabbitt
MINING-RAILROAD The Jackrabbitt District was started in 1876. A fifteen-mile narrow gauge railroad opened in

1891 between the Jackrabbitt Mine and Pioche. After 1893, the mines fell silent except for several short periods of activity.
38.095466, -114.582300 [blue]

205. Crystal Springs
MORMON TRAIL Crystal Spring was used as a watering place and campsite on an alternate route of the Mormon Trail in the mid-nineteenth century. In 1866, the town site was designated as the provisional County Seat for Lincoln County. The Governor found that the region lacked the number of voters necessary and the county government was organized at Hiko.
37.532594, -115.233563 [blue]

206. Hiko
MINING In 1865, a mining camp was established here. The next year a 5-stamp mill began processing Pahrangat ores and soon after, Hiko became the first county seat. About two years later, area mining enterprises failed and the mill was moved to Bullionville in 1870. Hiko consequently declined in population and importance, which accelerated following the removal of the county government to Pioche in 1871.

LANDER

95. Battle Mountain
MINING-RAILROAD In 1868, the railroad established a siding here. In 1870, a station was moved to this location. Between 1880 and 1938 this was the operating headquarters for the Central Nevada Railway and the shorter-lived Battle Mountain and Lewis Railroad. The town's first copper boom developed in 1897 and Battle Mountain steadily outgrew Austin to the south and the county seat was moved here in 1979.
40.641894, -116.934046 [blue]

119. Reuel Colt Gridley
"Citizen Extraordinaire"
EVENT-MILITARY-PERSON This simple stone structure, opened to the public in late 1863, originally operated as a general store. Gridley, one of the store owners, is best remembered for his 1864 wager that prompted the auctioning of a sack of flour for donations to the "Sanitary Fund," the Civil War forerunner of the American Red Cross.

5. Pioche

MINING Silver ore was discovered here in 1864. In 1869, the mines opened and Pioche was founded. In about three years, over five million dollars in ore was retrieved. In 1871, the town was designated the seat of Lincoln County. In the 1930s, Pioche enjoyed two decades of lead-zinc mining.

37.926683, -114.449234 [stone]

furnishing hay for nearby mining. In 1901, rancher Charles Culverwell allowed a railroad grade to be built through his land and the population boomed. With the completion of the Las Angeles, San Pedro, and Salt Lake Railroad in 1905, Caliente became a division point. The iconic Mission Revival-style depot was built in 1923.

38. Pahrnagat Valley

MINING-NATIVE AMERICAN-RANCHING/FARMING

There are three local springs that feed the valley's lakes and meadows. This area continues to be important to both Western Shoshone and Southern Paiute Tribes. In 1865, ore was discovered in the area and the ore processing town of Hiko became the center of activity.

37.362174, -115.159125 [blue]

57. Old Boundary

EVENT Starting in 1850, the 37th degree north latitude, marked at this point, was the dividing line between the territories of Utah and New Mexico. In 1861 it became the southern boundary for the Nevada Territory.

37.044596, -114.984411 [blue]

90. Delamar, "The Widow Maker" 1893-1909

MINING Around 1891, gold was discovered twelve miles south of here. By 1893, the mining town of Delamar was home to over 1,500 residents. The dry milling process, used at the time, created a fine silica dust, or "death" dust. Many residents died of lung disease giving the town its nickname, "The Widow Maker".

37.619598, -114.794884 [blue]

39. Panaca

EVENT-LDS-MINING-RANCHING/FARMING Southern Nevada's first permanent settlement was established as a Mormon colony in 1864. Although nearby mining at nearby Bullionville and Pioche has had its effect, Panaca remains an agricultural community.
