Hunters & Gatherers Thousands of years ago, Native American ancestors lived off the land in Nevada. They moved season to season to hunt animals and gather plants. They left behind evidence of their lives.

Find the Evidence: There are 7 clues in the picture below. These clues help us know that Native American ancestors once lived in the area. Can you find all of them?

Connect the Dots: Rock writings are scratched (petroglyphs) or painted (pictographs). It is important not to add your own images to the rocks.

Circle the things you should do. Cross Out the things you should not do.

Capture the food! The person with the most wins!

You move by connecting two dots with a line. When you place the last ‘wall’ of a single square (box), the box is yours. The players move in turn, but whenever a player takes a box they must move again.

The Nevada Site Stewardship Program is a state run program that trains volunteers and the public to report any damage they find to archaeological or historic sites. If you find damage, please call our office or report your findings online.
