Protect Nevada

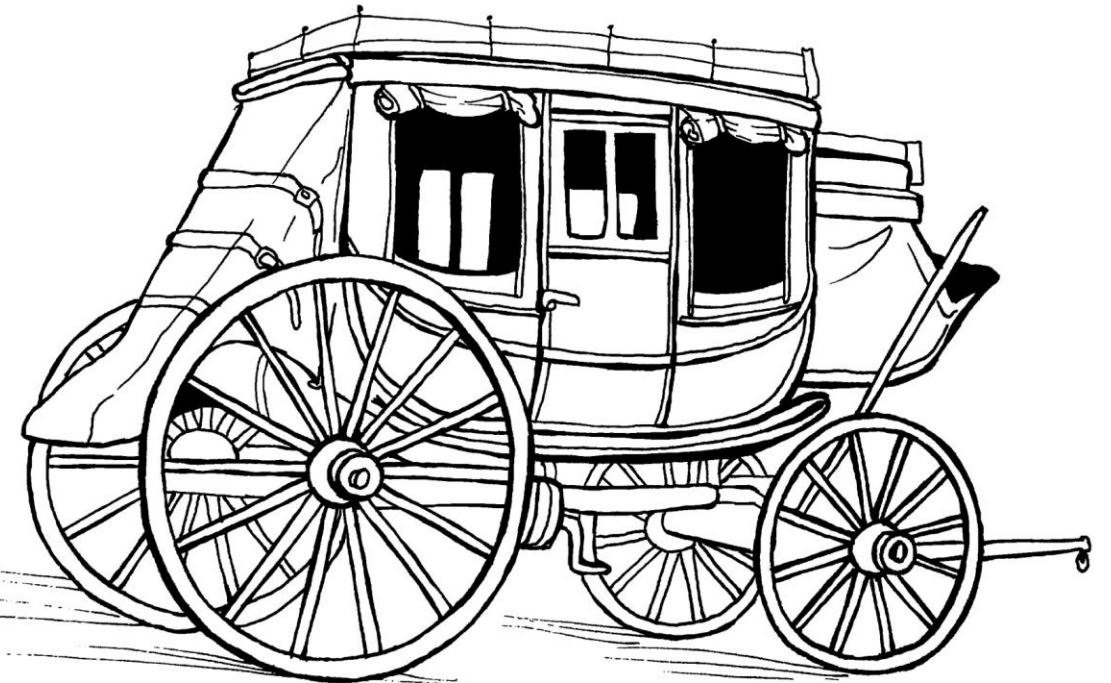

Historic Artifacts

Circle the objects you would find in a 1900's wagon.

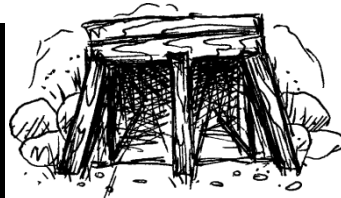

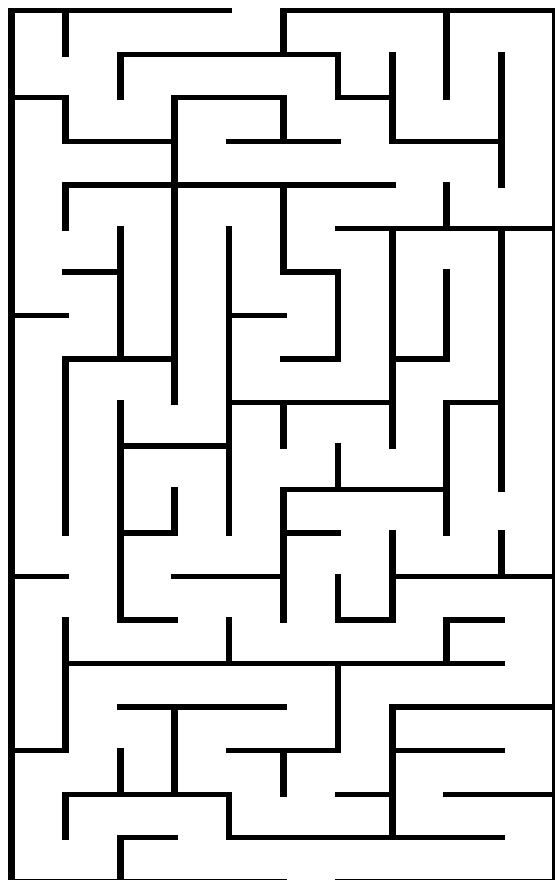

Artifacts from the past like tin cans and bottles are protected. It is illegal to remove them from public lands.

Mining & Ranching is a big part of Nevada's past. Artifacts left behind by these pioneers tell us the story of how people used to live. When you visit these historic sites, take only pictures and leave only footprints.

START

Miners moved from mine to mine chasing silver.

They removed ore (rock with silver) from the mines.

The ore was crushed and then heated to melt out the silver.

Miner's Meal

Biscuits

Sardines

Coffee

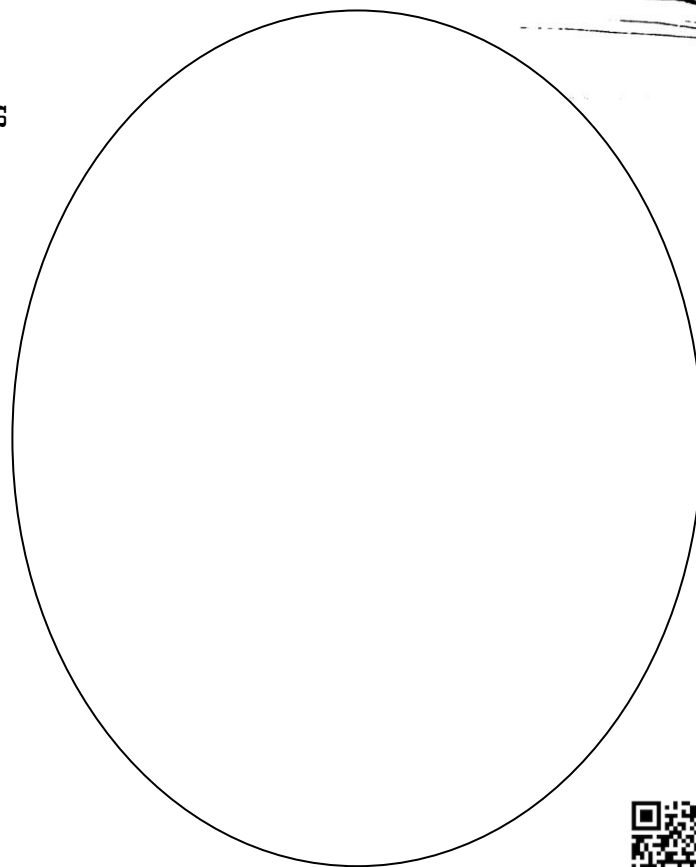

Water

Beans

Your Meal

Draw what you are eating.
