Request for Permission to Undertake Structural or Visual Alterations

This project, 21-S02-4 ADA Site Upgrades Building 6 proposes to remove and replace the existing damaged and non-ADA compliant stairs and ramps with new ADA compliant stairs and ramps at the east building entrance which will utilize the same basic footprints where feasible.

We are also proposing the same handrail and guardrail designs that have been recently approved and installed for Building 89 ADA ramp / stairs at the Stewart Campus.

All proposed building materials will be concrete and all existing stone work will not be disturbed to preserve the architectural character of the building.
